Unbelievable Michael Newton Keas, 2019-01-08 Unbelievable explodes seven of the most popular and pernicious myths about science and religion Michael Newton Keas a historian of science lays out the facts to show how far the conventional wisdom departs from reality He also shows how these myths have proliferated over the past four centuries and exert so much influence today infiltrating science textbooks and popular culture The seven myths Keas shows amount to little more than religion bashing especially Christianity bashing Unbelievable reveals Why the Dark Ages never happened Why we didn t need Christopher Columbus to prove the earth was round Why Copernicus would be shocked to learn that he supposedly demoted humans from the center of the universe What everyone gets wrong about Galileo s clash with the Church and why it matters today Why the vastness of the universe does not deal a blow to religious belief in human significance How the popular account of Giordano Bruno as a martyr for science ignores the fact that he was executed for theological reasons not scientific ones How a new myth is being positioned to replace religion a futuristic myth that sounds scientific but isn t In debunking these myths Keas shows that the real history is much more interesting than the common narrative of religion at war with science This accessible and entertaining book offers an invaluable resource to students scholars teachers homeschoolers and religious believers tired of being portrayed as anti intellectual and anti science *Understanding Our Universe* Stacy

the beginning and perhaps a moment before to what I call the Mystery Then we will turn around and watch this Unknowable come into being as our Universe The evolution of the Universe will be before our eyes There lie the answers The Mystery is not knowable or describable in any fashion yet the trajectory of our story sends us squarely into its midst It is where science human language and concepts fail Despite this it is our heritage We must deal with Mystery or we will forever be unfulfilled One of the discoveries will be to realize how all knowledge and the material world are directly related Their origins will be apparent The Big Bang will be found to be a process and not an event It is still becoming not only in the world around us but within as well There are no smoke and mirrors It is a non fiction story you can see for yourself The facts and conclusion are easily checked and the reader will not have to cross their fingers or set their minds aside to appreciate the story Come along for the Journey into Mystery This is the story I always wanted to write It is the story hopefully you are looking to discover
