A Handbook for Trainee Nursing Associates gives you an accessible introduction to the knowledge and understanding you will need at the start of your training and into your healthcare career.

An Introduction to the Sociology of Health and Illness Dr Kevin White, 2002-03-26 The main purpose of this book is to demonstrate that disease is socially produced and distributed. Becoming sick and unhealthy is not the result of individual misfortune or an accident of nature. It is a consequence of the social, political and economic organization of society. In developing this thesis, the author systematically introduces students to the major sociological explanations of the role and functions of medical explanations of disease. The book situates the student securely in the literature and provides a guide to the strengths and weaknesses of the major sociological approaches. It draws out the essential features of the major sociological contributions and elucidates how an appreciation of the dynamics of class, gender, ethnicity and the sociology of knowledge challenges medical power.

Foundations for Health Promotion - E-Book Jane Wills, 2022-03-31 This hugely popular textbook provides a broad based and user friendly introduction to health promotion and its use in practice. Written by Professor Jane Wills, the book takes the reader through health promotion theory, strategy and methods, settings and implementation. It is clearly structured and accessibly written with a discursive style that will appeal to readers of all levels and sufficient theoretical depth for undergraduates and postgraduates alike. Foundations for Health Promotion is suitable for students and practitioners of nursing, medicine, dentistry, allied health and social work who will learn the essentials of health promotion as a discipline and reflect on its potential for their own work. Packed with interactive exercises to consolidate learning. Focus on application of knowledge to practice. Self reflection on practice in each chapter to encourage deeper engagement. Case studies and research examples provide evidence base for health promotion in different professions and areas of practice. New chapters on health protection, communicating health and healthy universities. New chapter on evaluating research and evidence, key components of workforce competencies. Thoroughly revised and updated throughout to reflect recent changes in health promotion theories, practice and policy. Accompanying videos narrated by Professor Wills give an overview of key topics.
