Une Soupe Aux Herbes Sauvages French Edition:

A Life of Her Own Emilie Carles, Robert Destanque, 1992-06-01 First published in France in 1977 this autobiography vivifies the captivating Carles from her peasant origins in a tiny Alpine village through her work as a teacher farmer mother feminist and political activist *Auto/ethnography* Deborah Reed-Danahay, 2021-01-07 In departing from the traditional stance taken by anthropologists who study others ethnographically this timely book explores forms of self inscription on the part of both the ethnographer and those others who are studied Informed by developments in postmodernism postcolonialism and feminism this is an original contribution to the growing dialogue across disciplinary boundaries The chapters build upon recent reconsiderations of the uses and meaning of personal narrative to examine the ways in which selves and social forms are culturally constituted through biographical genres Ethnic autobiography self reflexivity in ethnography and native ethnography raise provocative questions about a range of issues for the contemporary scholar authenticity of voice ethnographic authority and the degree to which autoethnography constitutes resistance to hegemonic bodies of discourse Examined here in a variety of cultural and political contexts writing about the self offers challenging insights into the construction and transformation of identities and cultural meanings **The Construction of Memory in Interwar France** Daniel J. Sherman, 1999 The contrast between battlefield and home front soldier and civilian was the basis for memory and collective gratitude Postwar commemoration however also grew directly out of the long and agonized search for the remains of hundreds of thousands of missing soldiers and the sometimes contentious debates over where to bury them For this reason the local monument with its inscribed list of names and its functional resemblance to tombstones emerged as the focal point of commemorative practice Sherman traces every step in the process of monument building as he analyzes commemoration s competing goals to pay tribute to the dead to console the bereaved and to incorporate mourners individual memories into a larger political discourse Pub description *Rural Inventions* Sarah Farmer, 2020-02-19 At the close of the twentieth century even as globalization spurred the growth of megacities worldwide inhabiting the French countryside had become an internationally shared fantasy and practice Accounts of moving into old farmhouses were bestsellers and houses and barns built by peasants had been renovated as second homes throughout the rural hinterland Such developments Sarah Farmer argues did not simply stem from nostalgia for a rural past or a desire to invest in real estate Rather they defined new versions of the rural that emerge in post agrarian societies In post World War II France cutting edge technological modernization and explosive economic growth uprooted rural populations and eroded the village traditions of a largely peasant nation And yet this book argues rural France did not vanish in the sweeping transformations of the 1950s and 1960s The French responded to the collapse of peasant society and threats to cherished landscapes by devising new ways of inhabiting the countryside making them the sites of change and adaptation In addition to the rise of restored peasant houses as second residences *Rural Inventions* explores the utopian experiments in rural communes and in going back to the land

environmentalism the extraordinary success of peasant autobiographies photography and other representations through which the French revalorized rural life and landscapes The peasantry as a social class may have died out but the countryside persisted valued as a site not only for agriculture but increasingly for sport and leisure tourism social and political engagement and a natural environment worth protecting The postwar French state and the nation's rural and urban inhabitants Sarah Farmer eloquently shows remade the French countryside in relation to the city and to the world at large not only invoking traditional France but also creating a vibrant and evolving part of the France yet to come
