

A black and white photograph of a staircase. The stairs are dark and lead upwards. On the right side, there is a light-colored wall with a series of small, dark, curved objects, possibly light fixtures or decorative elements. At the top of the stairs, there is a large window with multiple panes, letting in bright light. The overall mood is contemplative and somewhat somber.

Unequal City Race Schools And Perceptions Of Injustice:

Unequal City Carla Shedd, 2015-10-20 Chicago has long struggled with racial residential segregation high rates of poverty and deepening class stratification and it can be a challenging place for adolescents to grow up Unequal City examines the ways in which Chicago's most vulnerable residents navigate their neighborhoods life opportunities and encounters with the law In this pioneering analysis of the intersection of race place and opportunity sociologist and criminal justice expert Carla Shedd illuminates how schools either reinforce or ameliorate the social inequalities that shape the worlds of these adolescents Shedd draws from an array of data and in depth interviews with Chicago youth to offer new insight into this understudied group Focusing on four public high schools with differing student bodies Shedd reveals how the predominantly low income African American students at one school encounter obstacles their more affluent white counterparts on the other side of the city do not face Teens often travel long distances to attend school which due to Chicago's segregated and highly unequal neighborhoods can involve crossing class race and gang lines As Shedd explains the disadvantaged teens who traverse these boundaries daily develop a keen perception of injustice or the recognition that their economic and educational opportunities are restricted by their place in the social hierarchy Adolescents worldviews are also influenced by encounters with law enforcement while traveling to school and during school hours Shedd tracks the rise of metal detectors surveillance cameras and pat downs at certain Chicago schools Along with police procedures like stop and frisk these prison like practices lead to distrust of authority and feelings of powerlessness among the adolescents who experience mistreatment either firsthand or vicariously Shedd finds that the racial composition of the student body profoundly shapes students perceptions of injustice The more diverse a school is the more likely its students of color will recognize whether they are subject to discriminatory treatment By contrast African American and Hispanic youth whose schools and neighborhoods are both highly segregated and highly policed are less likely to understand their individual and group disadvantage due to their lack of exposure to youth of differing backgrounds

Racial Reconciliation and the Healing of a Nation Charles J. Ogletree, Jr., Austin Sarat, 2017-10-24 The work at hand for bridging the racial divide in the United States From Baltimore and Ferguson to Flint and Charleston the dream of a post racial era in America has run up against the continuing reality of racial antagonism Current debates about affirmative action multiculturalism and racial hate speech reveal persistent uncertainty and ambivalence about the place and meaning of race and especially the black white divide in American culture They also suggest that the work of racial reconciliation remains incomplete Racial Reconciliation and the Healing of a Nation seeks to assess where we are in that work examining sources of continuing racial antagonism among blacks and whites It also highlights strategies that promise to promote racial reconciliation in the future Rather than revisit arguments about the importance of integration assimilation and reparations the contributors explore previously unconsidered perspectives on reconciliation between blacks and whites Chapters connect identity politics the rhetoric of race and

difference the work of institutions and actors in those institutions and structural inequities in the lives of blacks and whites to our thinking about tolerance and respect Going beyond an assessment of the capacity of law to facilitate racial reconciliation Racial Reconciliation and the Healing of a Nation challenges readers to examine social political cultural and psychological issues that fuel racial antagonism as well as the factors that might facilitate racial reconciliation Transforming Multicultural Education Policy and Practice James A.
