United Arab Emirates Policy Making Contemporary:

Policy Styles and Policy-Making Michael Howlett, Jale Tosun, 2018-10-26 Richardson et al's respected and seminal *Policy Styles in Western Europe* 1982 shed valuable light on how countries tend to establish long term and distinctive ways to make policies that transcend short term imperatives and issues This follow up volume updates those arguments and significantly expands the coverage consisting of 16 carefully selected country level case studies from around the world Furthermore it includes different types of political regimes and developmental levels to test more widely the robustness of the patterns and variables highlighted in the original book The case studies covering countries from the United States Canada Germany and the UK to Russia Togo and Vietnam follow a uniform structure combining theoretical considerations and the presentation of empirical material to reveal how the distinct cultural and institutional features of modern states continue to have implications for the making and implementation of public policy decisions within them The book is essential reading for students and scholars of public policy public administration comparative politics and development studies

The United Arab Emirates Kristian Ulrichsen, 2016-12-01 Led by Dubai and Abu Dhabi the UAE has become deeply embedded in the contemporary system of international power politics and policy making Only an independent state since 1971 the seven emirates that constitute the UAE represent not only the most successful Arab federal experiment but also the most durable However the 2008 financial crisis and its aftermath underscored the continuing imbalance between Abu Dhabi and Dubai and the five northern emirates Meanwhile the post 2011 security crackdown revealed the acute sensitivity of officials in Abu Dhabi to social inequalities and economic disparities across the federation The *United Arab Emirates Power Politics and Policymaking* charts the various processes of state formation and political and economic development that have enabled the UAE to emerge as a significant regional power and major player in the post Arab Spring reordering of Middle East and North African Politics as well as the closest partner of the US in military and security affairs in the region It also explores the seamier underside of that growth in terms of the condition of migrant workers recent interventions in Libya and Yemen and latterly one of the highest rates of political prisoners per capita in the world The book concludes with a discussion of the likely policy challenges that the UAE will face in coming years especially as it moves towards its fiftieth anniversary in 2021 Providing a comprehensive and accessible assessment of the UAE this book will be a vital resource for students and scholars of International Relations and Middle East Studies as well as non specialists with an interest in the United Arab Emirates and its global position

The United Arab Emirates Kristian Coates Ulrichsen, 2016-12-01 Led by Dubai and Abu Dhabi the UAE has become deeply embedded in the contemporary system of international power politics and policy making Only an independent state since 1971 the seven emirates that constitute the UAE represent not only the most successful Arab federal experiment but also the most durable However the 2008 financial crisis and its aftermath underscored the continuing imbalance between Abu Dhabi and Dubai and the five northern emirates Meanwhile the post 2011 security crackdown

revealed the acute sensitivity of officials in Abu Dhabi to social inequalities and economic disparities across the federation. The United Arab Emirates Power Politics and Policymaking charts the various processes of state formation and political and economic development that have enabled the UAE to emerge as a significant regional power and major player in the post Arab Spring reordering of Middle East and North African Politics as well as the closest partner of the US in military and security affairs in the region. It also explores the seamier underside of that growth in terms of the condition of migrant workers, recent interventions in Libya and Yemen and latterly one of the highest rates of political prisoners per capita in the world. The book concludes with a discussion of the likely policy challenges that the UAE will face in coming years especially as it moves towards its fiftieth anniversary in 2021. Providing a comprehensive and accessible assessment of the UAE, this book will be a vital resource for students and scholars of International Relations and Middle East Studies as well as non specialists with an interest in the United Arab Emirates and its global position. **Routledge Handbook of Persian Gulf**

Politics Mehran Kamrava, 2020-05-31 The Routledge Handbook of Persian Gulf Politics provides a comprehensive and up to date analysis of Persian Gulf politics, history, economics and society. The volume begins its examination of Ottoman rule in the Arabian Peninsula, exploring other dimensions of the region's history up until and after independence in the 1960s and 1970s. Featuring scholars from a range of disciplines, the book demonstrates how the Persian Gulf's current complex politics is a product of interwoven dynamics rooted in historical developments and memories, profound social, cultural and economic changes underway since the 1980s and the 1990s, and inter-state and international relations among both regional actors and between them and the rest of the world. The book comprises a total of 36 individual chapters divided into the following six sections: Historical Context, Society and Culture, Economic Development, Domestic Politics, Regional Security Dynamics, The Persian Gulf and the World. Examining the Persian Gulf's increasing importance in regional politics, diplomacy, economics and security issues, the volume is a valuable resource for scholars, students and policy makers interested in political science, history, Gulf studies and the Middle East. The Foreign Policy of the United Arab Emirates Hassan Hamdan al-

Alkim, Hassan Hamdan Alkim, 1989 Foreign Policy has been crucial to the UAE ever since its birth in 1971 following Britain's decision to withdraw from the Gulf. How is the federation's foreign policy formulated? What are the internal and external pressures which shape it? How can a small Gulf state survive in the modern world? Dr Hassan Hamdan al Alkim himself, a UAE national, has not only studied the Emirates' policy making process in depth. He has also interviewed some of those closely involved in it. His detailed and fully documented study outlines the origins of the UAE and describes the evolution of its policies towards its neighbours, the wider Arab world and the big powers. Three illuminating case studies examine relations with Saudi Arabia and Iran and the UAE's attitude towards the Palestine question. The Middle East and South Asia 2019-2020, 2019-10-09 More than a quarter of the world's population live in the Middle East and South Asia yet our knowledge and understanding of the region is often limited to news updates about the latest conflicts and crises. This 53rd

edition of the annually updated volume of the World Today Series provides important insights that take the reader beyond the headlines. It offers detailed and up to date information about the politics, economies and societies of the twenty four states that make up the region. Contemporary events are placed in their historical context through an examination of major civilizations and key historical events. This volume introduces major themes that have shaped the region including the struggles of ordinary people to achieve democratic rights, the role of oil in shaping society, burgeoning environmental threats and the rise and fall of the Islamic State caliphate. While there is reason for optimism in regards to the Middle East and South Asia, this is tempered by the very real challenges that confront the region. The general reader will gain an understanding of these challenges and opportunities through an exploration of current and past developments.

Politics of the Modern Arab World Laleh Khalili, 2009. Covers the Arab world from Morocco to the borders of Iran with the focus primarily on the 20th Century. By choosing a wide array of authors, many of whom are from the region or from the non Anglophone world, the full breadth of worldwide scholarship on the modern Arab world is on display.

The Oxford Encyclopedia of the Modern Islamic World: Faqi-Leba John L. Esposito, 1995. This unique reference is the first comprehensive encyclopedia dedicated to the institutions, religion, politics and culture in Muslim societies throughout the world. Placing particular emphasis on the nineteenth and twentieth centuries, The Oxford Encyclopedia of the Modern Islamic World contains over 750 articles in four volumes. The focus throughout is on the Islamic dimension of the Muslim experience in recent history and background. Articles ground the information in its historical context and ensure continuity. Entries address political and social action as well as formal texts and emphasis is placed on the practice and theory of Islam in Muslim societies around the globe. Unlike more limited explorations of Islam, this work looks at Muslim societies in the Arab heartland as well as in South and Southeast Asia and even in Europe and the Americas. Thus it is an invaluable resource offering extensive comparative and systematic analyses of Islamic beliefs, institutions, movements, practices and peoples on an international scale. Topical categories covered include history and geography, schools of thought, religious beliefs, theology and philosophy, mysticism, religious practice, devotionism and ritual, religious law, politics, economics, culture and society and biographies. Alphabetically arranged articles range from brief 500 word essays to major interpretive and synthetic treatments of topics such as the Islamic state, pilgrimage, law, marriage and foreign relations. Related entries cover such topics as social and political movements, women, Muslim minorities, human rights, Islam in the West and interreligious affairs. Truly multidisciplinary, this work reflects the breadth and depth of contemporary scholarship in Islamic studies, combining the tools of the humanities and social sciences to examine the interrelationship of religion, politics and culture in Muslim societies and to explain the changing realities of Muslim life. Designed for easy use by both scholars and students, the work has an index and an extensive system of cross references that provide easy access to the network of related articles throughout the encyclopedia. Entries are written by Muslim and non Muslim scholars from around the world. Unique in its focus on the modern Islamic world, this

encyclopedia is an invaluable reference for anyone concerned with Islam scholars and students of many disciplines government and media analysts who increasingly require an understanding of the Muslim world and interested lay readers who are becoming more and more familiar with Islamic politics and culture **Islam and the Modern Age** ,2008
