Black Brands Fernando Olivares, 2019-09-16 Who manufactures cereal for Kellogg s Why are the Mercedes Smart and the Renault Twingo almost identical Do Danone and Nestl really manufacture everything they make us believe they manufacture Is Zara an opaque or a transparent brand Why do some companies claim we do not manufacture for other brands when yet they hide from us the fact that sometimes other brands manufacture for them The number of companies outsourcing the whole of their production for their brands in an opaque manner is constantly increasing while they disregard the legitimate need for information and communication of the general public and consumers Paradoxically in this age of transparency opacity is ever growing among well known brands in every industrial sector Black Brands in the Age of Transparency is an extraordinary piece of work on truths and lies on transparency and opacity of leading companies and brands in our age The book is full of relevant cases never discussed before in sectors such as consumer products baby foods fashion vehicles and mobile phones Insightful and incisive Fernando Olivares has directed his team to produce this book that will educate us as citizens and consumers Their goal is to promote honest transparency the only way to attain corporate legitimacy and sustainability in our time

Environmental Impacts During the Operational Phase of Residential Buildings Inge Blom, 2010 To date the focus in the field of sustainable building has been on new building design However existing residential buildings inflict great

environmental burden through three causes continuous energy consumption regular building maintenance and replacements This publication analyses and compares these three causes of environmental burden and shows that material resources needed for replacements generally have a limited potential to reduce environmental impact Reducing energy consumption for climate control and electrical appliances is much more effective According to the author sustainable measures should be tested for shifts in the kind of environmental impact caused due to the use of alternative types of energy resources and altered material quantities The sustainability of the electricity supply is essential to decrease the total environmental impact of the residential building stock Applied Plastics Engineering Mr. Rohit Manglik,2024-01-30 EduGorilla Publication is a

Culey,2018-11-06 We live in disruptive times The world is changing faster than ever before leaving people dazed businesses struggling economies floundering and societies fracturing But why Transition Point is the result of over five years of research to establish the answer a breathtaking tale of freedom unintended consequences and disruptive technologies that starts 1000 years ago and ends up in the second half of the 21st Century Starting with an examination into the drivers of technological change and the social economic and political factors that both enable or suppress it Transition Point explains why industrialisation happened where and when it did why progress comes in waves and why the technologies in the current wave such as robotics blockchain and AI are likely to be the most disruptive of all It then addresses the million dollar question what's next What impact will this wave have on our businesses our economies and most importantly on our society Culey explores how our current trajectory could result in a new golden age but also how it is just as likely to result in a digital dictatorship of compliance and constant surveillance Finally he explains why we may soon see Homo sapiens role as the dominant species come to an end As Klaus Schwab founder of the World Economic Forum stated We stand on the brink of

a technological revolution that will fundamentally alter the way we live work and relate to one another In its scale scope and complexity the transformation will be unlike anything humankind has experienced before Transition Point explains why this is happening what it means and why the decisions we make now will prove to be critical
