Visual Basic Tutorial

VISUAL BASIC is one of the easiest programming tools to master, anybody could come up with a nice little window-based program within a short time, age is not a limiting factor. However, do not ever think that Visual Basic can only allows the building of simple programs, you could actually develop very advanced and powerful applications with VB.

The objective of this online tutorial is to provide free tutorial for beginners and intermediate users. This tutorial employed a user-friendly approach by using very simple language to explain the technical terms of programming, and included a lot of interesting examples. So, you can be assured that you can master VB programming through this tutorial in a short period of time. Those who want to use the lessons as their teaching materials in schools and colleges are welcome to do so but not without prior consent from the webmaster.

You are welcome to participate in our discussion, ideas are greatly appreciated. If you like to contribute your sample programs, please share them with us, I am sure all of us
