Mensa Guide to Casino Gambling Andrew Brisman, 2004 The runaway winner as the best overall gambling encyclopedia written in the past 20 years Detroit Free Press Walk away from every casino a winner Take it from Mensa the society for people with high IQs you don't have to be a genius to triumph at the tables Here's the inside line on the games and bets that give the best advantage Do you know whether to split a pair of aces in blackjack which slot machines carry the worst payback for the player and why losses are more significant at video than live keno Beat the bank by understanding all this and more including odds and probability the house edge money management and gambling psychology The chips will just pile up The author lives in New York NY

Gambling for Winners Ward Wilson, This book is for you only if you gamble to make money If your idea of fun and entertainment includes giving away your hard earned money to casinos I can't help you If you enjoy sitting in a mindless bright lights dinging trance while you drop quarters down a slot this book is not for you If you think casinos are built and run by stupid people you better stay out of them If you think you can beat a blackjack dealer by wild assed guessing think again If you play poker just because it's now so popular you don't need my book If you believe you can just happen to be lucky enough to beat the odds you live in a fantasy world and you'd hate this book for destroying your illusions But if you're hard headed serious willing to work and tired of the mainstream gambling books that simply teach you how to lose less rather than win If you understand casinos don't stay in business by giving out more money than they take in This is an extensive examination of the most popular forms of gambling If you can find any positive expectation bets and how Some of the material is controversial Some of it is unique It's not for beginners If

you don't already know how to play blackjack or craps buy and read the basic books first This one assumes you know and understand the rules of play If you have emotional or psychological issues around money my strong advice is don't gamble If you want to believe casinos are playgrounds built for your amusement this is not the book for you I use statistical concepts and common sense to strip away the bright lights and glamor to reveal the mathematical realities of gambling For the most part it's not pretty Not if you want to make money instead of lose it But there are opportunities there for people willing to work hard and understand the obstacles so they can surmount them If you're still an emotional child needing the adrenaline rush and excitement of winning money this is not for you And not only the casinos want to take your money hordes of online scammers selling bogus systems online also are after the money belonging to would be pro gamblers Until you can enter a casino and remain blind to the red carpeting the flashing lights dingy slots and the entire aura of glamorous partying you'll remain a loser If you have enough money to pay for a mirage that's up to you Most people don't
