Wireless Operational Security:

Wireless Operational Security John Rittinghouse PhD CISM, James F. Ransome PhD CISM CISSP, 2004-05-01 This comprehensive wireless network book addresses the operational and day to day security management requirements of 21st century companies. Wireless networks can easily be reconfigured, are very mobile, allow for potentially nonstop exposure, and require the level of security be scrutinized even more than for wired networks. This includes inherent security flaws in various wireless architectures that result in additional risks to otherwise secure converged wired networks. An even worse scenario is one where an insecure wireless network is connected to a weakly secured or insecure wired network and the wireless subnet is not separated from the wired subnet. There are approximately a dozen popular books that cover components of the architecture, design, theory, issues, challenges, and recommended policies for wireless security, none of which address them in a practical, operationally oriented, and comprehensive way. *Wireless Operational Security* bridges this gap. Presents a new WISDOM model for Wireless Security Infrastructures. Acts as a critical guide to implementing Converged Networks, wired wireless, with all necessary security considerations. Rittinghouse's *Cybersecurity Operations Handbook* is the only security book recommended by the FCC. *Operations Security OPSEC Threat Reduction Solutions LLC*, A must have tool for enterprise Operations Security OPSEC practitioners or individuals who want to understand how their every day activities generate information that can be used against them and what to do about it. TACTIKS are designed to answer four key questions: 1 Who are the threats? 2 What are their targets? 3 What are their hostile tactics? 4 What countermeasures will stop them? Content includes the following: Operations Security, Critical Information, Open Source Information, Observation Based Information, Web Based Information, Imagery Intelligence, Communications Intelligence, Trash Intelligence, Social Engineering, Elicitation, Glossary of Terms, Acronyms.
