Schaller,2024-05-31

Dependent on a shrinking supply of bamboo hunted mercilessly for its pelt and hostage to profiteering schemes once in captivity the panda is on the brink of extinction Here acclaimed naturalist George Schaller uses his great evocative powers and the insight gained by four and a half years in the forests of the Wolong and Tangjiahe panda reserves to document the plight of these mysterious creatures and to awaken the human compassion urgently needed to save them No scientist is better at letting the rest of us in on just how the natural world works no poet sees the world with greater clarity or writes about it with more grace Anyone who genuinely cares for wildlife cannot help being grateful to Schaller both for his efforts to understand the panda and for

the candor with which he reports what has gone so badly wrong in the struggle to save it from extinction Geoffrey C Ward New York Times Book Review Schaller's book is a unique mix of natural history and the politics of conservation and it makes for compelling reading Having been in giant panda country myself I found some of the descriptions of the animals and habitats breathtaking Schaller describes the daily routines and personalities of the giant pandas he studied as well as their fates thereafter as though they were his blood relatives Schaller's brilliant presentation of the complexities of conservation makes his book a milestone for the conservation movement Devra G Kleiman Washington Post Book World George Schaller's most soulful work written in journal style with many asides about a creature who evolved only two to three million years ago about the same time as humans Here conservation biology confronts an evil that grinds against hope and shatters the planet's diversity Written with hope Whole Earth Catalog A nicely crafted blend of wildlife observation and political cultural analysis The Last Panda is a sad chronicle of our failure so far to stem the decline of the animal that may be the most beloved on the planet Donald Dale Jackson Smithsonian *A Chance for Lasting Survival* Pan Wenshi, 2014-03-04 From 1984 through 1995 a small band of ecologists led by Pan Wenshi from Peking University conducted a study of wild giant pandas in the Qinling Mountains of Shaanxi Province This project was the first Chinese led conservation project in China and was conducted during a significant transition period in Chinese history as the country opened its society and science to the world The project focused on behavioral observation of wild giant pandas but evolved to include physiology nutrition ecology land use policy and population biology as the staff became more aware that the issues with captive pandas assisted reproduction unusual diet and genetic inbreeding were not the most critical to survival of wild populations It is evident in this work that as the scientists gained knowledge they came to see giant panda conservation as wrapped in landscape ecology and human wildlife interactions The group was seminal in the Chinese government's enactment of a logging ban to their study area by advocating for pandas at the national level The project was summarized in a 2001 volume but its publication in Mandarin limited its influence on the greater conservation community This English version of the original work translates condenses and refines the original volume with added contextual chapters on the importance of this volume and how our understanding of giant panda conservation is shaped by this pioneering field work *Doctor Panda's Adventures: Discovering the Secrets of Health & Kindness* Dr. Mudit Sabharwal, Unlock the Wonders of Health and Kindness with Dr Panda Step into the lush jungle with Dr Panda where every day is an adventure in learning and growing In this enchanting book Dr Panda's Adventures Learning Health it's a valuable tool for parents to instill lifelong habits of health and empathy in their children Make every storytime an opportunity for growth and joy Add Dr Panda's Adventures Learning Health Kindness to your cart today and embark on a journey filled with wisdom and love *Giant Pandas* Don Lindburg, Karen Baragona, 2004-08-23 The much loved giant panda a secretive denizen of the dense bamboo forests of western China has become an icon worldwide of progress in conservation and research This volume written by an international team of scientists and conservationists

including Chinese researchers whose work has not been available in English tells the promising story of how the giant panda returned from the brink of extinction The most important sourcebook on giant pandas to date it is the first book since 1985 to present current panda research and the first to place the species in its biological ecological and political contexts More than a progress report on a highly endangered species Giant Pandas Biology and Conservation details the combination of scientific understanding local commitment and government involvement that has been brought into play and asks what more needs to be done to ensure the panda s survival The book is divided into four parts Evolutionary History of the Giant Panda Studies of Giant Panda Biology Pandas and Their Habitats and Giant Panda Conservation It combines the latest findings from the field and the laboratory together with panel and workshop summaries from a recent international conference Taken together the chapters highlight how international cooperation has led to better management in the wild and in captivity The volume also shows how concepts such as buffer zones links between forest fragments multiple use areas and cooperation with local people who have a stake in the resources highly relevant concepts for conservation problems around the world have been key to the panda s survival

Panda and Goose Have Fun Pasquale De Marco, Panda and Goose are two best friends who love to explore the world around them They are always up for an adventure and they never let anything stop them from having fun Whether they are playing in the park going on a hike or just spending time together at home Panda and Goose always find ways to make the most of their time They are always learning new things and they are always making new friends Panda is a curious and playful panda bear He loves to learn new things and try new things He is always full of energy and he always has a smile on his face Goose is a wise and kind goose He is always there for Panda and he always knows how to make him feel better He is a great listener and he always has good advice Together Panda and Goose are an unstoppable team They can do anything they set their minds to They are always there for each other and they always have each other s backs Panda and Goose are the best of friends and they will be friends forever They are always there for each other and they always have each other s backs They are an inspiration to us all and they show us that anything is possible if you have a good friend by your side In this book Panda and Goose share their adventures with us They teach us about the importance of friendship kindness and having fun They also show us that the world is a big and beautiful place and that there is always something new to learn Panda and Goose are two special animals and they have a lot to teach us about friendship and life They are a reminder that we should always be kind to each other and that we should always be there for our friends
