Virtual Machines and Networks Through Microsoft Azure Services for Remote Access Connection Dr. Hedaya Mahmood Alasooly, 2021-02-04 Microsoft Azure commonly referred to as Azure is a cloud computing service created by Microsoft for building testing deploying and managing applications and services through Microsoft managed data centers It provides software as a service SaaS platform as a service PaaS and infrastructure as a service IaaS and supports many different programming languages tools and frameworks including both Microsoft specific and third party software and systems The major benefit of a remote desktop connection is being able to connect to your data from anywhere in the world Your data is in one place that is easy to see and you no longer have to have software installed on your own computer Azure is one of the best virtual computers and networks providers for remote desktop RDP connections When you create Azure account you pay as you go You purchase Azure services with pay as you go pricing You pay only for what you use each month with no upfront commitment and cancel anytime You must add your credit debit card for billing to use pay as you go subscription But I was looking for totally free subscription where I don't need to add my credit card for billing I found there are two possible options for that 1 A sandbox gives you access to Azure resources Your Azure subscription will not be

charged The sandbox may only be used to complete training on Microsoft Learn Creating the Azure Virtual machines using sandbox which is learning subscription you can connect to the VM via RDP port but you cannot access to Internet through the Internet Explorer 2 Alternatively Microsoft Azure provides a free 100 credit for students accounts registered through university emails free student subscription for around one year There is internet access in the VM machine under this type of subscription Azure documentations is too deep and it is hard to be understand creating and managing virtual computers and networks in Auzre for remote access connection by any beginner So I tried to outline in this report the most important topics as reference guide to assist the user to create and manage virtual computers and networks in Azure for remote access connection in simplified and clear way This report will include the following parts Getting free Azure subscription through Sandbox Microsoft Learn subscription No credit card needed Free 12 months then pay as you go Azure account subscription Credit card needed Student subscription No debit credit cards needed How to get university email Virtual networks and virtual machines in Azure Quick start for PowerShell in Azure Cloud Shell Quick start with Azure PowerShell Installing Azure CLI on Windows and creating virtual machine Creating a Windows virtual machine in Azure Quick start to create a Linux virtual machine in the Azure portal Tutorial to create a NAT Gateway using the Azure portal and test the NAT service What is Azure Network Watcher Network Watcher Agent Troubleshoot connections with Azure Network Watcher using the Azure portal Troubleshoot Azure VM connectivity problems Quick start to configure Load Balancer Quick start to configure VPN Gateway using Azure portal Tutorial to connect to a virtual machine using Azure Bastion Exercise to create Window Virtual Machine Exercise to create Ubuntu Virtual Machine
