Women And Dieting Culture Inside A Commercial Weight Loss Group:

Women and Dieting Culture Kandi M. Stinson, 2001 Commercial weight loss organizations have come under attack from feminist scholars for perpetuating the very social values that cause women to obsess about their weight In *Women and Dieting Culture* sociologist Kandi Stinson asks how these values are transmitted and how the women who join such organizations actually think about their bodies and weight loss As part of her research Stinson fully participated in a national commercial weight loss organization as a paying member Her acute analysis and sensitive insider's portrayal vividly illustrate the central roles dieting and body image play in women's lives *Diet Culture and Counterculture* Natalie

Jovanovski, 2024-08-13 This book is the first of its kind to explore how women challenge the powerful sociocultural and gendered phenomenon of diet culture across the broad anti diet movement and beyond Showcasing the voices of over 150 everyday women activists and health professionals across Australia New Zealand Canada the United States and the United Kingdom the author provides new insight into anti diet practices while giving agency for women who remain main targets of diet culture Using Pierre Bourdieu's concept of habitus as a novel starting point to develop a concept of the diet habitus the author explores the possibility of a fragmented but unified diet counterculture Drawing on feminist perspectives from women's and fat liberation movements the author demonstrates that women's anti diet practices are grounded in a combination of self and society one that has the power to significantly re shape the broad landscape of food and eating for women This international book appeals to scholars students activists and health professionals interested in the intersections of the sociology of the body fat studies sociology of food and nutrition social movements health sociology and women's studies

Feminist Theology and Contemporary Dieting Culture Hannah Bacon, 2019-08-08 Hannah Bacon draws on qualitative research conducted inside one UK secular commercial weight loss group to show how Christian religious forms and theological discourses inform contemporary weight loss narratives Bacon argues that notions of sin and salvation resurface in secular guise in ways that repeat well established theological meanings The slimming organization recycles the Christian terminology of sin spelt Syn and encourages members to frame weight loss in salvific terms These theological tropes lurk in the background helping to align food once more with guilt and moral weakness but they also mirror to an extent the way body policing techniques in Christianity have historically helped to cultivate self care The self breaking and self making aspects of women's Syn watching practices in the group continue certain features of historical Christianity serving in similar ways to conform women's bodies to patriarchal norms while providing opportunities for women's self development Taking into account these tensions Bacon asks what a specifically feminist theological response to weight loss might look like If ideas about sin and salvation service hegemonic discourses about fat while also empowering women to shape their own lives how might they be rethought to challenge fat phobia and the frenetic pursuit of thinness As well as naming as sin principles and practices which diminish women's appetites and bodies this book forwards a number of proposals about how salvation might

be performed in our everyday eating habits and through the cultivation of fat pride It takes seriously the conviction of many women in the group that food and the body can be important sites of power wisdom and transformation but channels this insight into the construction of theologies that resist rather than reproduce thin privilege and size ist norms *Down to Earth Sociology: 14th Edition* James M. Henslin,1981-02-01 For thirty five years and through thirteen editions Jim Henslin's *Down to Earth Sociology* has opened new windows onto the social realities that shape our world Now in its fourteenth edition the most popular anthology in sociology includes new articles on our changing world while also retaining its classic must read essays Focusing on social interaction in everyday life the forty six selections bring students face to face with the twin projects of contemporary sociology understanding the individual's experience of society and analyzing social structure The fourteenth edition's exceptional new readings include selections on the role of sympathy in everyday life mistaken perceptions of the American family the effects of a criminal record on getting a job and the major social trends affecting our future Together with these essential new articles the selections by Peter Berger Herbert Gans Erving Goffman Donna Eder Zella Luria C Wright Mills Deborah Tannen Barrie Thorne Sidney Katz Philip Zimbardo and many others provide firsthand reporting that gives students a sense of being there Henslin also explains basic methods of social research providing insight into how sociologists explore the social world The selections in *Down to Earth Sociology* highlight the most significant themes of contemporary sociology ranging from the sociology of gender power politics and religion to the contemporary crises of racial tension crime rape poverty and homelessness *The American Beauty Industry Encyclopedia* Julie Willett,2010-05-11 This is the first encyclopedia to focus exclusively on the many aspects of the American beauty industry covering both its diverse origins and its global reach *The American Beauty Industry Encyclopedia* is the first compilation to focus exclusively on this pervasive business covering both its diverse origins and global reach More than 100 entries were chosen specifically to illuminate the most iconic aspects of the industry's past and present exploring the meaning of beauty practices and products often while making analytical use of categories such as gender race sexuality and stages of the lifecycle Focusing primarily on the late 19th and 20th century American beauty industry an era of unprecedented expansion the encyclopedia covers ancient practices and the latest trends and provides a historical examination of institutions entrepreneurs styles and technological innovations It covers for example the 1911 Triangle Shirtwaist Factory fire as well as how Asian women today are having muscle fiber removed from their calves to create a more Western look Entries also explore how the industry reflects social movements and concerns that are inextricably bound to religion feminism the health and safety of consumers and workers the treatment of animals and environmental sustainability **Reconstructing Obesity** Megan B. McCullough,Jessica A. Hardin,2013-10-01 In the crowded and busy arena of obesity and fat studies there is a lack of attention to the lived experiences of people how and why they eat what they do and how people in cross cultural settings understand risk health and bodies This volume addresses the lacuna by drawing on ethnographic methods and

analytical emic explorations in order to consider the impact of cultural difference embodiment and local knowledge on understanding obesity It is through this reconstruction of how obesity and fatness are studied and understood that a new discussion will be introduced and a new set of analytical explorations about obesity research and the effectiveness of obesity interventions will be established **Diners, Dudes, and Diets** Emily J. H. Contois, 2020-10-02 The phrase dude food likely brings to mind a range of images burgers stacked impossibly high with an assortment of toppings that were themselves once considered a meal crazed sports fans demolishing plates of radioactively hot wings barbecued or bacon wrapped anything But there is much more to the phenomenon of dude food than what's on the plate Emily J H Contois's provocative book begins with the dude himself a man who retains a degree of masculine privilege but doesn't meet traditional standards of economic and social success or manly self control In the Great Recession's aftermath dude masculinity collided with food producers and marketers desperate to find new customers The result was a wave of new diet sodas and yogurts marketed with dude friendly stereotypes a transformation of food media and weight loss programs just for guys In a work brimming with fresh insights about contemporary American food media and culture Contois shows how the gendered world of food production and consumption has influenced the way we eat and how food itself is central to the contest over our identities

Men and the War on Obesity Lee F. Monaghan, 2008-04-02 Lee F Monaghan offers a timely critical and original take on the obesity debate bringing male bodies into the frame and questioning the claim from public health that millions of people are unhealthy because they are overweight or obese **Seeking the Straight and Narrow** Lynne Gerber, 2012-08-01 Losing weight and changing your sexual orientation are both notoriously difficult to do successfully Yet many faithful evangelical Christians believe that thinness and heterosexuality are godly ideals and that God will provide reliable paths toward them for those who fall short Seeking the Straight and Narrow is a fascinating account of the world of evangelical efforts to alter our strongest bodily desires Drawing on fieldwork at First Place a popular Christian weight loss program and Exodus International a network of ex gay ministries Lynne Gerber explores why some Christians feel that being fat or gay offends God what exactly they do to lose weight or go straight and how they make sense of the program's results or frequently their lack Gerber notes the differences and striking parallels between the two programs and more broadly she traces the ways that other social institutions have attempted to contain the excesses associated with fatness and homosexuality Challenging narratives that place evangelicals in constant opposition to dominant American values Gerber shows that these programs reflect the often overlooked connection between American cultural obsessions and Christian ones

Weighty Problems Laura Backstrom, 2019-04-05 By investigating how contemporary cultural discourses of childhood obesity are experienced by children Laura Backstrom illustrates how deeply fat stigma is internalized during the early socialization experiences of children Weighty Problems finds that embodied inequality is constructed and negotiated through a number of interactional processes including resocialization stigma management social comparisons and attribution
