The Ultimate Betrayal The Enabling Mother Incest And Sexual Abuse:

Ultimate Betrayal Audrey Ricker, 2006-09-01 This pioneering self help book takes a close look at a topic that has been ignored or downplayed by other books on incest and childhood sexual abuse that the non-perpetrating parent usually bears a great deal of responsibility for the child's abuse. In this examination of the complicated dynamics of abuse the enabling mother is not treated as a victim rather as an adult responsible for her failure to protect her child. Self-help exercises are interspersed with case histories and analytical material throughout the book useful to both survivors and therapists.

Adverse Childhood Experiences and Their Life-Long Impact Ami Rokach, Shauna Clayton, 2023-08-08 Adverse Childhood Experiences and Their Life-Long Impact explores how these experiences influence cognitive, behavioral, and social experiences in adulthood. The book conceptualizes the types of violence, abuse, neglect, and/or trauma that factor into ACEs. It also explores the psychopathological outcomes of ACEs among children, including neurodevelopmental and psychosocial mechanisms. By drawing on cross-cultural perspectives, the authors provide insight into the variations between adversity and trauma children experience. Sections also cover preventive measures, risk factors, and various forms of interventional treatment, making this book a core read for psychologists, physicians, social workers, educators, and researchers in the field. Provides a comprehensive framework for understanding adverse childhood experiences. Reviews the link between ACE and homelessness, substance abuse, and physical and/or sexual violence in adulthood. Highlights key components of cross-cultural perceptions on child abuse and neglect, including differences of gender. Explores options for prevention and intervention for those who experience adverse childhood experiences.

The Maternal Gaze in the Gothic Sara Williams, 2025-01-27 This monograph is an original project which plots the trajectory of the maternal gaze as a convention in the Gothic. It offers new directions for Gothic studies by exposing and challenging a critical and cultural myopia towards the capabilities of maternal desire and in doing so engages with a range of texts from the Romantic to contemporary literary and visual cultures to locate a tyrannical maternal gaze in the genre. Compelling a seismic shift in the perception of the genre as the embodiment of patriarchy and the sexually violent male gaze, this is a new and unexplored area of both the Gothic and criticism of the genre which has historically privileged the Oedipal paternal tyrant/female victim dynamic established in the Romantic Gothics of Walpole and Radcliffe. The monograph fills significant gaps in the Gothic academic publishing market. It is the first overview of the maternal gaze in the Gothic; it offers in-depth studies of previously neglected authors and their works and it fundamentally changes how we see the Gothic mother figure and child, both as a single entity and discrete tropes. The Maternal Gaze in the Gothic examines how articulations of maternal visual tyrannies in the Gothic, including kidnapping, incarcerating, gaslighting, hurting, and killing the child under the guises of protection, are ignored by both the Gothic critical heritage and also feminist gaze theory. This book is a must-read for those interested in the Gothic and Feminism alike.

Betrayal Salman Akhtar,2018-05-01 Betrayal underlies all psychic trauma whether sexual abuse or profound neglect violence or treachery extramarital affair or embezzlement When we betray others we violate their confidence in us When others betray us they pierce the veil of our innocent reliance Betraying and feeling betrayed are ubiquitous to the scenarios of trauma and yet surprisingly neglected as a topic of specific attention by psychoanalysis This book fills this gap The first part deals with developmental aspects and notes that while the experience of betrayal might be ubiquitous in childhood its lack of recognition by the parents is what leads to fixation upon it Attention is also given to Oedipally indulged and seduced children who feel betrayed later in the course of their development Feelings of betrayal during early adolescence are also discussed This section of the book closes with an account of situations where our bodies betray us The

realms of body image betrayal body self betrayal and the body s ultimate betrayal via physical death are addressed
