The Third Freedom Ending Hunger In Our Time:

The Third Freedom George Stanley McGovern, 2001 In this book George McGovern lays out a workable and affordable five point program to end world hunger And in the midst of this heated debate one compelling moral issue is clear every major religion and ethical formulation commands its adherents to feed the hungry We feed the hungry because it is right McGovern contends that it will also be economically beneficial to all American Government and the Vision of the Democrats

Mark Louis Latour, 2007-04-26 This work is a comprehensive introduction to the most important issues facing American citizens and their government It addresses various interpretations of the proper role of government with a view towards the Democrats re working of such integral issues as States rights Societal affluence and social needs Campaign finance reform Media Consolidation America s climbing debt ceiling China s military and political expansion Manufacturing s decline Job outsourcing The disappearance of pension plans The whittling away of America s middle class America s inadequate health care system Environmental degradation America s vanishing family farms **Freedom from Want**

George Kent, 2005-06-02 There is literally a world of difference between the statements Everyone should have adequate food and Everyone has the right to adequate food In George Kent s view the lofty rhetoric of the first statement will not be fulfilled until we take the second statement seriously Kent sees hunger as a deeply political problem Too many people do not have adequate control over local resources and cannot create the circumstances that would allow them to do meaningful productive work and provide for themselves The human right to an adequate livelihood including the human right to adequate food needs to be implemented worldwide in a systematic way Freedom from Want makes it clear that feeding people will not solve the problem of hunger for feeding programs can only be a short term treatment of a symptom not a cure The real solution lies in empowering the poor Governments in particular must ensure that their people face enabling conditions that allow citizens to provide for themselves In a wider sense Kent brings an understanding of human rights as a universal system applicable to all nations on a global scale If as Kent argues everyone has a human right to adequate food it follows that those who can empower the poor have a duty to see that right implemented and the obligation to be held morally and legally accountable for seeing that that right is realized for everyone everywhere **Freedom from Poverty**

Daniel P.L. Chong, 2011-06-06 Human rights advocacy in the West is changing Before the turn of the century access to goods such as food housing and health care while essential to human survival were deemed outside of the human rights sphere Traditional human rights institutions focused on rights in the political arena that could be defended through legal systems In Freedom from Poverty Daniel P L Chong examines how today s nongovernmental organizations are modifying human rights practices and reshaping the political landscape by taking up the cause of subsistence rights This book outlines how three types of NGOs human rights social justice and humanitarian organizations are breaking down barriers by incorporating access to economic and social goods into national laws and advancing subsistence rights through nonjuridical means These

NGOs are using rights not only as legal instruments but as moral and rhetorical implements to build social movements shape political culture and guide development work Rights language is now invoked in churches political campaigns rock concerts and organizational mission statements Chong presents a social theory of human rights to provide a framework for understanding these changes and defending the legitimacy of these rights Freedom from Poverty analyzes new trends in the evolution of human rights by combining constructivist and postpositivist legal approaches This book provides valuable concepts to human rights practitioners political scientists antipoverty advocates and leaders who are serious about ending widespread privation and disease **The enforceability of the human right to adequate food** Bart Wernaart,2023-09-04

While the right to adequate food is often discussed in the context of developing countries especially in situations where access to adequate food is a problem on a larger scale this book focusses on the right to food in two Western countries in which theoretically the circumstances allow this right to be enjoyed by each individual Through a legal comparative study the enforceability of the right to food is compared between the Netherlands and Belgium in light of the current UN Human Rights system There seems to be a difference between what the countries do what they say they do and what they should do on the matter As it appears the coincidental constitutional circumstances mainly determine the enforceability of the right to food rather than the content of the human right in itself This book includes a thorough analysis of suitable comparative legal methodology and the embedment of the right to food in the UN human right system Furthermore for both countries an in depth analysis of the case law on the right to food mostly concerning the status of foreigners the constitutional context in which the Judiciary operates and the relevant UN reports and subsequent procedures are outlined Finally recommendations are made to both countries and the relevant UN Committees **Vietnam and the American Political Tradition** Randall

B. Woods,2003-02-24 This volume is intended to demonstrate how opposition to the war in Vietnam the military industrial complex and the national security state crystallized in a variety of different and often divergent political traditions Indeed for many of the figures discussed dissent was a decidedly conservative act in that they felt that the war threatened traditional values mores and institutions even though their definitions of what was sacred differed profoundly To an extent many of the dissenters treated in this volume were at one time Cold War liberals During the course of the Vietnam War they came to see the foreign policy which they were supporting with its willingness to invoke the democratic ideal and at the same time tolerate dictatorships in the cause of anticommunism as morally and politically corrupt Most dissenters increasingly came to perceive cold war liberalism as a radical departure that threatened the fundamental ideals of the republic The Liberals' Moment Bruce Miroff,2009 Revisits the largely forgotten story of how the McGovern campaign represented the zenith of sixties style liberalism and how its historic defeat still haunts Democrats to this day and in the process identifies what Democrats must do before they can reassume their role as agents of progressive change **Harper's** ,2002 *World At Risk: A Global Issues Sourcebook* CQ Press,2002-05-10 Articles offer introductory analysis and reference material on thirty

key issues facing the world in such fields as economics the environment human development law politics and security

The Nation ,1897 **John Stuart Mill's Political Philosophy** John R. Fitzpatrick,2006-06-22 In the aftermath of the terrorist attacks of September 11 2001 the philosophy of John Stuart Mill has never been more relevant Can we reconcile individual liberty with the demands of the common good John Fitzpatrick argues that properly understood Mill s liberal utilitarianism can indeed support a system of rights rich enough to guarantee individual liberty Combining fresh interpretations of Mill s writings on ethics politics and political economy with the historical Mill that can found in his autobiography the book will be of substantial interest to a wide audience *Transplanting the Great Society* Kristin L. Ahlberg,2008 Kristin Ahlberg traces the transformation of Public Law 480 from a means of liquidating domestic surplus into a vital component of U S foreign policy She focuses on how Lyndon Johnson sought to re create his Great Society reforms on a global scale by exporting programs designed to improve the lives of world citizens through combating food shortages and how he also wielded Food for Peace as a diplomatic tool to gain support for U S policies and to reward or punish allies for their behavior Ahlberg draws on recently declassified sources to show how the Johnson administration used Food for Peace to win diplomatic support for American policy in Vietnam prevent nuclear proliferation on the Indian subcontinent and uphold Israeli security *Transplanting the Great Society* is an insightful study that shows the successes and limitations of using food aid as a diplomatic tool during the middle period of the Cold War It paints a broader picture of Johnson s foreign policies opening a new window on both his administration and postwar diplomatic history **BOOK JACKET** **World Hunger** Susan Hunnicutt,2006-11-08 Provides a number of different contemporary perspectives on the reasons for world hunger It also examines ways in which the problem may be solved **George McGovern** Robert P.
