Dozois, Gardner Dozois, 1999 The 21st edition of the award winning annual compilation of the year's best science fiction stories *Science Fiction, Canonization, Marginalization, and the Academy* Gary Westfahl, George Slusser, 2002-01-30 Science fiction occupies a peculiar place in the academic study of literature For decades scholars have looked at science fiction with disdain and have criticized it for being inferior to other types of literature But despite the sentiments of these traditionalists many works of science fiction engage recognized canonical texts such as the Odyssey and many traditionally canonical works contain elements of science fiction More recently the canon has been subject to revision as scholars have deliberately sought to include works that reflect diversity and have participated in the serious study of popular culture But these attempts to create a more inclusive canon have nonetheless continued to marginalize science fiction This book examines the treatment of science fiction within the academy The expert contributors to this volume explore a wide range of topics related to the place of science fiction in literary studies These include academic attitudes toward science fiction the role of journals and cultural gatekeepers in canon formation and the marginalization of specific works and authors by literary critics In addition the

volume gives special attention to multicultural and feminist concerns In discussing these topics the book sheds considerable light on much broader issues related to the politics of literary studies and academic inquiry *The Year's Best Science Fiction: Sixteenth Annual Collection* Gardner Dozois,1999-07-30 The past through tomorrow are boldly imagined and reinvented in the twenty five stories collected in this showcase anthology Many of the field's finest practitioners are represented here along with stories from promising newcomers including William Barton Rob Chilson Tony Daniel Cory Doctorow Jim Grimsley Gwyneth Jones Chris Lawson Ian McDonald Robert Reed William Browning Spencer Allen Steele Michael Swanwick Howard Waldrop Cherry Wilder Liz Williams A useful list of honorable mentions and Dozois's insightful summation of the year in sf round out this anthology making it indispensable for anyone interested in SF today [The A to Z of Fantasy Literature](#) Brian Stableford,2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites **Introducing It Came From Outer Space** Simone Payment,2006-08-15 Presents the plot of *It Came from Outer Space* and tells how it was made describes what prompted the subject matter in the movie and shows how it influenced other science fiction movies [The Stuff of Science Fiction](#) Gary Westfahl,2022-10-07 While students and general readers typically cannot relate to esoteric definitions of science fiction they readily understand the genre as a literature that characteristically deals with subjects such as new inventions space robot and aliens This book looks at science fiction in precisely this manner with twenty one chapters that each deal with a subject that is repeatedly addressed in science fiction of recent centuries Based on a packet of original essays that the author assembled for his classes the book could serve as a supplemental textbook in science fiction classes but also contains material of interest to science fiction scholars and others devoted to the genre In some cases chapters offer thorough surveys of numerous works involving certain subjects such as imagined vehicles journeys beneath the Earth and undersea adventures

discovering intriguing patterns in the ways that various writers developed their ideas When comprehensive coverage of ubiquitous topics such as robots aliens and the planet Mars is impossible chapters focus on major themes referencing selected texts A conclusion discusses other science fiction subjects that were omitted for various reasons and a bibliography lists additional resources for the study of science fiction in general and the topics of each chapter

Modern Fantasy: The 100 Best Novels David Pringle,2014-09-30 Pringle presents his selections in chronological order and includes a synopsis of the story a discussion of the author's overall contribution to fantasy literature critical commentary on the title's significance and a brief publishing history An introductory essay tackles the difficulty of defining fantasy while a Brief Bibliography directs readers to other discussions of the genre By no means a definitive subject guide this entertaining volume should serve as a solid introduction to the elusive field of imaginative literature

Notional Identities Thomas Christie,2014-07-18 Notional Identities takes up the challenge of engaging with the popular genres of speculative fiction and crime fiction by Scottish authors from the mid 1970s until the beginning of the twenty first century examining a variety of significant novels from across the decades in the light of wider considerations of ideology genre and national identity The book investigates the extent to which the national political and cultural climate of this tumultuous era informed the narrative form and social commentary of such works and considers the manner in which and the extent to which a specific and identifiably Scottish response to these ideological matters can be identified in popular prose fiction during the period under discussion Although Scottish literary fiction of recent decades has been studied in considerable depth Scottish popular genre literature has received markedly less critical scrutiny in comparison Notional Identities aims to help in redressing this balance examining popular Scottish texts of the stated period in order to reflect upon whether a significant relationship can be discerned between genre fiction and the

mainstream of Scottish literary writing and to consider the characteristics of the literary connections which exist between these different modes of writing
