Epistemic Situationism Abrol Fairweather, Mark Alfano, 2017-04-15 This volume is the first sustained examination of epistemic situationism the clash between virtue epistemology and the situationist hypothesis inspired by research in empirical psychology Situationism began as a challenge to the psychology of character traits targeting ethical theories that presuppose a trait psychology Psychological research suggests that often trivial environmental variables have greater explanatory power than character traits Epistemology pursues questions about the nature of knowledge While there are internal differences within virtue epistemology between responsibilists and reliabilists they all analyze knowledge in terms of epistemic virtues and vices However despite promising normative results virtue epistemology appears to assume the same character based psychology as virtue ethics does Until recently virtue epistemology and situationism were separate literatures but philosophers have begun to examine the apparent incompatibility between situationist psychology and virtue epistemology Much of the psychological research that raises questions about the empirical adequacy of the moral psychology of virtue ethics also appears to raise doubts about the empirical adequacy of the epistemic psychology assumed by virtue epistemology Responsibilist virtue epistemology appears particularly vulnerable because epistemic virtues like open

mindedness conscientiousness and intellectual courage are traits of intellectual character but reliabilist virtue epistemology appeals to the psychology of cognitive skills abilities and competences that may be similarly vulnerable The essays in this volume take up this new problem of epistemic situationism from multiple points of view some sceptical or revisionary others conservative
