The Comprehensive and Progressive Trans-Pacific Partnership Jorge A. Huerta-Goldman, David A. Gantz, 2021-12-02 This volume provides comprehensive chapter by chapter assessment of one of the world s most important regional trade agreements the TPP CPTPP

The Trans-Pacific Partnership and the Path to Free Trade in the Asia-Pacific Peter C.Y. Chow, 2016-08-26 Mega regionalism in the Asia Pacific has led to the formation of several emerging trade blocs including the Trans Pacific Partnership This book in addition to the examination of trade policies in the region offers a comprehensive

analysis of ongoing developments such as the impact of new members on the incumbent TPP 12 and its spillover to third parties as well as an objective study of the crucial issues of liberalization of agriculture, pharmaceuticals and intellectual property rights. *The Political Economy of New Regionalisms in the Pacific Rim* José Briceño-Ruiz, Philippe De Lombaerde, 2019-08-28 Combining an analysis of regionalism from a systemic view with a domestic political economy analysis, this book sheds light on the new dynamics and emerging configurations of regionalisms and interregionalisms in the post Trans Pacific Partnership (TPP). Donald Trump's presidency has transformed trans Pacific economic and political relations, contrasting sharply with President Obama's pivot to Asia strategy. Unilateralism and bilateralism have returned to the center stage at the cost of regionalism, interregionalism and multilateralism. Understanding these new dynamics requires closer examination of the underlying domestic political economies. Examining ten country case studies of multi-actor agency at the national level, expert contributors argue that trans Pacific relations should not only be explained in terms of the behavior of the major powers but that medium powers and even small countries can exert influence and occupy strategic nodes and contribute to shaping a new international relations network. Their findings will be of interest to scholars of international relations, international political economy, regionalism and international economics. **Understanding the EU as a Good Global Actor** Fahey, Elaine, Mancini, Isabella, 2022-10-07 This timely book investigates the EU's multi-faceted development as a global actor, unpacking its legal mission to be a good actor as well as exploring the complexities of fulfilling this objective. It elicits critical reflections on the question of goodness in EU external relations from descriptive, analytical and normative perspectives and examines which metrics of actorness are useful in tackling this subject. The Cambridge Handbook of International and Comparative Trademark Law Irene Calboli, Jane C. Ginsburg, 2020-09-24 Trade in goods and services has historically resisted territorial confinement but trademark protection remains territorial, albeit within an increasingly important framework of multilateral treaties. Trademark law therefore demands that practitioners, policy makers and academics understand principles of international and comparative law. This handbook assists in that endeavour with chapters describing and critically analyzing international and regional frameworks and providing comparative perspectives on the substantive issues in trademark law and related fields such as geographic indications, advertising law and domain names. Chapters contrast common law and civil law approaches while focusing on the US and EU trademark systems in light of the role these systems have played in the development of trademark laws. Additionally, this handbook covers other jurisdictions, both common law and civil law, on the Asia Pacific, African and South American continents. This work should be read by anyone seeking a better understanding of trademark law around the world. Global Governance of Labour Rights Axel Marx, Jan Wouters, Glenn Rayp, Laura Beke, 2015-11-27 Stories and images of collapsed factories, burned down sweatshops, imprisoned migrant workers, child workers and many other violations of internationally recognized labour rights continue to spread across the globe. This highly topical book examines the different instruments which are intended to protect labour

rights on a transnational scale and asks whether they make a difference With perspectives from law management sociology political science and political economy the topics discussed include the protection of international labour rights in a globalizing economy the EU's social dimension in its external trade relations Asian and US perspectives on labour rights in international trade agreements the role of trade unions in global labour governance and the transformative capacity of private labour governance regimes Academics and advanced students from different disciplines will benefit from the up to date empirical material in this study Policymakers NGOs and Unions will find the discussions of the instruments used to protect labour rights of great value to their work

Understanding Security Role Evolution of US, China, and India Aditi Malhotra, 2022-12-27 This book revolves around the altering security roles of three pivotal powers the US China and India Each of these actors has experienced incremental changes in their external roles and behaviour over the last two decades which are determined by the range of domestic and international factors As each country works towards performing its revised security roles the policymakers are subject to dilemmas and challenges that impact policy implementation and conduct Using the framework of role theory the book analyses the role evolution of these countries and elucidates its link with their security policies in the Indo Pacific and on the global stage In the process it also examines the systemic and sub systemic factors that determine the foreign and security behaviour of these critical Indo Pacific countries Accessibly written this volume will be of great interest to scholars and researchers of international relations security and intelligence studies political science and foreign policy It will also be of great interest to policymakers career bureaucrats security and intelligence practitioners and professionals working with think tanks and embassies

Intellectual Property and Free Trade Agreements in the Asia-Pacific Region Christoph Antons, Reto M. Hilty, 2014-12-05 This book is highly topical The shift from the multilateral WTO negotiations to bilateral and regional Free Trade Agreements has been going on for some time but it is bound to accelerate after the WTO Doha round of negotiations is now widely regarded as a failure However there is a particular regional angle to this topic as well After concluding that further progress in the Doha round was unlikely Pacific Rim nations recently have progressed with the negotiations of a greatly expanded Trans Pacific Partnership Agreement that includes industrialised economies and developed countries such as the United States Japan Australia and New Zealand recently emerged economies such as Singapore but also several developing countries in Asia and Latin America such as Malaysia and Vietnam US and EU led efforts to conclude FTAs with Asia Pacific nations are also bound to accelerate again after a temporary slowdown in the negotiations following the change of government in the United States and the expiry of the US President's fast track negotiation authority The book will provide an assessment of these dynamics in the world's fastest growing region It will look at the IP chapters from a legal perspective but also put the developments into a socio economic and political context Many agreements in fact are concluded because of this context rather than for purely economic reasons or to achieve progress in fields like IP law The structure of the book follows an outline that groups

countries into interest alliances according to their respective IP priorities This ranges from the driving forces of the EU US and Japan via Asia Pacific resource rich but IP poor economies such as Australia and New Zealand recently emerged economies with strong IP systems such as Singapore and Korea to leading developing countries such as China and India and second tier industrializing economies such as Thailand Malaysia and Indonesia
