The Global Journey of Racism Michelle Christian,2025-07-01 In The Global Journey of Racism Michelle Christian provides a unified narrative of how the world s racial hierarchies came to be Christian s story begins before the Ku Klux Klan Nazi Germany and South African Apartheid tracing the historical lineage of white supremacy to the expansion of western European empire She uncovers the vast network of legal political economic and social mechanisms most potently enslavement that made up the original design for racialized knowledge capitalist systems and colonial management Contemporary manifestations of this design may have new rhythms beats and faces but they are all rooted in the modern hierarchy of global white supremacy and global anti Blackness Christian brings imperial history into conversation with the present and places the racial mechanisms at work in distinct nations alongside each other advancing a novel analysis of the global racial system In doing so she responds to scholarship on race and racism that emphasizes cultural specificity and asserts the dominance of a modern world that despite appeals to the contrary remains brazenly and without question racist

Palestine and the International Criminal Court Seada Hussein Adem,2019-04-05 This book deals with the possible investigation and prosecution by the International Criminal Court ICC of crimes allegedly committed in the Israeli Palestinian conflict In light of the Rome Statute and the Practice of the Office of the Prosecutor of the Court among others it examines the route possible outcomes and challenges that may arise were the Palestine situation to be brought before the ICC The subject matter is approached using the route the Prosecutor of the Court would generally employ to deal with situations The publication offers a step by step procedure by which to conduct the preliminary examination and investigation of the situation in Palestine and deals with matters of jurisdiction followed by a discussion of the fundamental

concepts of complementarity and gravity to determine the admissibility before the ICC. Alleged crimes particularly unique to the Israeli-Palestinian conflict such as the construction of settlements, forced displacement, house demolitions, the expropriation of land, the crime of apartheid and the blockade of Gaza are dealt with in light of the Rome Statute and international law. On the basis of the established theories of transitional justice, the possible impacts of an ICC investigation and prosecution on the conflict are analysed and a number of insights are shared with regard to the impacts of the ICC on combatting impunity, fostering Palestine's statehood, peace negotiations and the stability of the region. Due to the politicisation of the conflict and the various interests at stake, the impact of the ICC's involvement on the credibility of the ICC itself is also reviewed. Recognizing the numerous impacts of the conflict on the existence of the two nations and the multitude of causes for its perpetuity, it does not limit itself to the ICC but also provides other conflict resolution alternatives that could enable reconciliation and sustainable peace in the region. This book provides an array of opinions and a crucial input for researchers and practitioners alike while it is also useful to those investigating and possibly involved in prosecutions regarding Palestine or other similar situations before the ICC.

Seada Hussein Adem obtained a PhD from Humboldt University of Berlin, Germany, an LL.M. from the University of the Western Cape, South Africa, and an LL.B. from Haramaya University, Ethiopia.

div *The Past Can't Heal Us* Lea David, 2020-07-16 In this innovative study, Lea David critically investigates the relationship between human rights and memory, suggesting that instead of understanding human rights in a normative fashion, human rights should be treated as an ideology. Conceptualizing human rights as an ideology gives us useful theoretical and methodological tools to recognize the real impact human rights has on the ground. David traces the rise of the global phenomenon that is the human rights memorialization agenda, termed Moral Remembrance, and explores what happens once this agenda becomes implemented. Based on evidence from the Western Balkans and Israel/Palestine, she argues that the human rights memorialization agenda does not lead to a better appreciation of human rights but, contrary to what would be expected, it merely serves to strengthen national sentiments, divisions and animosities along ethnic lines and leads to the new forms of societal inequalities that are closely connected to different forms of corruptions.

Inequality: Economic and Social Issues Mats Lundahl, Daniel Rauhut, Neelambar Hatti, 2024-07-18 Inequalities of opportunity affect a person's life expectancy and access to basic services and human rights through discrimination, abuse and lack of access to justice. High levels of inequality of opportunity discourage skill accumulation, choke economic and social mobility and consequently depress economic growth. Inequality also entrenches uncertainty, vulnerability and insecurity, undermines trust in institutions and government, increases social discord and tensions and triggers violence and conflicts. This book presents wide-ranging perspectives on economic inequality as measured by differences in incomes and wealth. The contributors to the book explore how the economy is shaped in such a way as to generate differences in economic and social welfare between individuals, regions and nations. But the book is not limited to economic perspectives; inequality is a many

faceted phenomenon that manifests itself in a number of ways Thus the book begins with a section which highlights some of the standard features of inequality class gender and age The second section explores the manifestation of inequality in terms of differences in income and wealth The third section looks at some of the causes of inequality exploring the effects of discrimination and plunder by those in power The final section serves to drive home the point that geographic and institutional factors have an important place as well when it comes to shedding light on what equality is how it manifests itself and what its consequences are This book will be essential reading for anyone interested in the causes and consequences of economic inequality including those in economics sociology politics and geography
