Governing Cross-Border Data Flows Svetlana

Yakovleva,2024-02-27 Governing Cross Border Data Flows explores how the European Union can simultaneously reconcile and pursue two important legal and policy objectives namely protecting fundamental rights guaranteed under the EU Charter of Fundamental Rights EU Charter concerning privacy and personal data while also maintaining and developing a binding rules based global trading system to ensure appropriate access to foreign digital markets for EU businesses The book demonstrates a significant conflict between international trade law and European data privacy law when it comes to the governance of cross border flows of personal data To resolve the tensions caused by this clash the book proposes concrete and detailed ways to ameliorate the situation from both ends international trade and personal data protection specifically through reforms of both international trade and chapter V of the General Data Protection Regulation GDPR To explain how such reforms could be effectuated Yakovleva examines the role of discourse in the evolution of trade law in the last two decades The book also paves the way for the further research necessary to design a fully fledged reform proposal of the EU framework for the transfer of personal data outside the European Economic Area

Market Investigations Massimo

Motta,Martin Peitz,Heike Schweitzer,2022-01-06 In many economic sectors the digital industries being first and foremost the market power of dominant firms has been steadily increasing and is rarely challenged by competitors Existing competition laws and regulations have been unable to make markets more contestable The book argues that a new competition tool is needed market investigations This tool allows authorities to intervene in markets which do not function as they should due to market features such as network effects scale economies switching costs and behavioural biases The book explains the role of market investigations assesses their use in the few jurisdictions where they exist and discusses how they should be designed In so doing it provides an invaluable and timely instrument to both practitioners and academics

Network

Industries and Social Welfare Massimo Florio,2013-06-20 This book offers a careful scrutiny of energy and telephony

reforms and their social impact on households in 15 countries across Western Europe It concludes that the benefits for consumers are limited and it discusses the reasons why the European reform experiment of network industries is not living up to its promises
