Unification of Tort Law, 2002 *Unification of Tort Law* W. H. van Boom, 2005-01-01 Covers various European countries Israel South Africa and the United States The Europeanisation of English Tort Law Paula Giliker, 2014-12-01 Tort law is often regarded as the clearest example of traditional common law reasoning Yet in the past 40 years the common law of England and Wales has been subject to European influences as a result of the introduction of the European Communities Act 1972 and more recently the implementation of the Human Rights Act 1998 in October 2000 EU Directives have led to changes to the law relating to product liability health and safety in the workplace and defamation while Francovich liability introduces a new tort imposing State liability for breach of EU law The 1998 Act has led to developments in privacy law and made the courts reconsider their approach to public authority liability and freedom of expression in defamation law This book explores how English tort law has changed as a result of Europeanisation broadly defined as the influence of European Union and European human rights law It also analyses how this influence has impacted on traditional common law reasoning Has Europeanisation led to changes to the common law legal tradition or has the latter proved more resistant to change than might have been expected Tort Liability of Public Authorities in European Laws Giacinto della Cananea, Roberto Caranta, 2020-12-15 This series argues that there is a common administrative core to European legal systems that can be better understood in comparative terms This volume examines government liability in tort using case studies to explore different government responses Part I sets the stage for the project and the parameters followed by the scholars involved Part II expands on the legal systems chosen for comparison setting up their general tort procedures Part III presents case studies from Austria the European Union France Germany Hungary Italy Poland Romania Spain Switzerland and the United Kingdom Each case study has a theoretical response detailing what would happen should that case occur within each country's borders Part IV compares and contrasts the information provided in Part III It examines both the commonalities and the distinctive traits of these legal systems with a view to understand the nature of their common core This volume is an essential tool for anyone involved in administrative and constitutional law and government liability in tort
