Building Brand Equity and Consumer Trust Through Radical Transparency Practices Veselinova, Elena, Samonikov, Marija Gogova, 2017-07-13 The creation of business value and competitive advantage is crucial to any company in the modern corporate sector. By developing positive relationships with consumers, businesses can better maintain their customers' loyalty. *Building Brand Equity and Consumer Trust Through Radical Transparency Practices* is an innovative reference source for emerging scholarly perspectives on the role of branding in organizational contexts and techniques to sustain a profitable and honest relationship with consumers. But there's good news: The ideas that will solve our problems are hiding in plain sight. While big companies in the American economy have never been more successful, entrepreneurial activity is near a 30-year low. More businesses are dying than starting every day. Investors continue to dump billions of dollars into photo sharing apps and food delivery services, solving problems for only a wealthy sliver of the world's population while challenges in health, food security, and education grow more serious. In *The Innovation Blind Spot*, entrepreneur and venture capitalist Ross Baird argues that the innovations that truly matter don't see the light of day for reasons entirely of our own making. A handful of people in a handful of cities are deciding behind closed doors which entrepreneurs get a shot to succeed. And most investors are what Baird calls "two pocket thinkers," artificially separating their charitable work from their day job of making a profit. The resulting system creates rising income inequality, stifled entrepreneurial ambition, social distrust, and political uncertainty. Our innovation problem makes all our other problems harder to solve. In this book, Baird demonstrates how and where to find better ideas by lifting up people, places, and industries that are often overlooked. What's more, Baird ultimately outlines how to create long-term success through one-pocket thinking, eliminating the blind spot that separates what we do for a living and what we really care about. **El cambio climático**
