Rethinking the Republic of Letters Koen Scholten, 2025-10-01 This book offers a revisionist look at the historiography of the Republic of Letters and the community of learning in early modern Europe It suggests a new approach conceptualising the learned world as a web of imagined communities in which the members do not know all their peers These communities formed through distinct memory cultures and the representation of and identification with collective identities Rethinking the Republic of Letters looks at early modern biographical dictionaries vitae eulogies letters travelogues and funerary monuments of early modern learned men to trace the reformation of these communities It thereby offers a novel perspective on early modern learned communities the many Republics of Letters

Reassembling the Republic of Letters in the Digital Age Howard Hotson, Thomas Wallnig, 2019 Between 1500 and 1800 the rapid evolution of postal communication allowed ordinary men and women to scatter letters across Europe like never before This exchange helped knit together what contemporaries called the *respublica litteraria* a knowledge based civil society crucial to that era's intellectual breakthroughs formative of many modern values and institutions and a potential cornerstone of a transnational level of European identity Ironically the exchange of letters which created this community also dispersed the documentation required to study it posing enormous difficulties for historians of the subject ever since To reassemble that scattered material and chart the history of that imagined community we need a revolution in digital communications Between 2014 and 2018 an EU networking grant assembled an interdisciplinary community of over 200 experts from 33 different countries and many different fields for four years of structured discussion The aim was to envisage transnational digital infrastructure for facilitating the radically multilateral collaboration needed to reassemble this scattered documentation and to support a new generation of scholarly work and public dissemination The framework emerging from those discussions potentially applicable also to other forms of intellectual cultural and economic exchange in other periods and regions is documented in this book

Digital Research Methods for Translation Studies Julie McDonough Dolmaya, 2023-12-22 Digital Research Methods for Translation Studies introduces digital humanities methods and tools to translation studies This accessible book covers computer assisted approaches to data collection data analysis and data visualization and presentation offering authentic examples of these approaches in both translation studies research and projects from related fields With a diverse range of examples featuring various contexts and language combinations to ensure relevance to a wide readership this volume covers the strengths and limitations of computer assisted research methods as
