With Erasmus's

The Sileni of Alcibiades

Edited and Translated by

DAVID WOOTTON

Utopia With Erasmuss The Sileni Of Alcibiades

Thomas More

Utopia With Erasmuss The Sileni Of Alcibiades:

Utopia Thomas More (Sanctus), Desiderius Erasmus Rotterdamius, 1999 *Utopia* Thomas More, 1999-01-15 Wootton's translation brings out the liveliness of More's work and offers an accurate and reliable version of a masterpiece of social theory. His edition is further distinguished by the inclusion of a translation of Erasmus's *The Sileni of Alcibiades*, a work very close in sentiment to *Utopia* and one immensely influential in the sixteenth century. This attractive combination suits the edition especially well for use in Renaissance and Reformation courses as well as for Western Civilization survey courses. Wootton's Introduction simultaneously provides a remarkably useful guide to anyone's first reading of More's mysterious work and advances an original argument on the origins and purposes of *Utopia*, which no one interested in sixteenth-century social theory will want to miss.

Shakespeare's Folly Sam Hall, 2016-06-23 This study contends that folly is of fundamental importance to the implicit philosophical vision of Shakespeare's drama. The discourse of folly's wordplay, jubilant ironies, and vertiginous paradoxes furnish Shakespeare with a way of understanding that lays bare the hypocrisies and absurdities of the serious world. Like Erasmus More and Montaigne before him, Shakespeare employs folly as a mode of understanding that does not arrogantly insist upon the veracity of its own claims; a fool's truth, after all, is spoken by a fool. Yet as this study demonstrates, Shakespearean folly is not the sole preserve of professional jesters and garrulous clowns; for it is also apparent on a thematic, conceptual, and formal level in virtually all of his plays. Examining canonical histories, comedies, and tragedies, this study is the first to either contextualize Shakespearean folly within European humanist thought or to argue that Shakespeare's philosophy of folly is part of a subterranean strand of Western philosophy which itself reflects upon the folly of the wise. This strand runs from the philosopher-fool Socrates through to Montaigne and on to Nietzsche, but finds its most sustained expression in the Critical Theory of the mid to late twentieth century, when the self-destructive potential latent in rationality became an historical reality. This book makes a substantial contribution to the fields of Shakespeare, Renaissance humanism, Critical Theory, and Literature and Philosophy. It illustrates moreover how rediscovering the philosophical potential of folly may enable us to resist the growing dominance of instrumental thought in the cultural sphere.

The Oxford Handbook of Thomas More's Utopia, 2023-11-15 Thomas More's *Utopia* is one of the most iconic translated and influential texts of the European Renaissance. This Handbook of specially commissioned and original essays brings together for the first time three different ways of thinking about the book in terms of its Renaissance contexts, its vernacular translations, and its utopian legacies. It has been developed to allow readers to consider these different facets of *Utopia* in relation to each other and to provide fresh and original contributions to our understanding of the book's creation, vernacularization, and afterlives. In so doing, it provides an integrated overview of More's text as well as new contributions to the range of scholarship and debates that *Utopia* continues to attract. An especially innovative feature is that it allows readers to follow *Utopia* across time and place, unpacking the often revolutionary moments that encouraged its translation by new

generations of writers as far afield as France Russia Japan and China The Handbook is organized in four sections on different aspects of the origins and contexts of Utopia in the 1510s on histories of its translation into different vernaculars in the early modern and modern eras and on various manifestations of utopianism up to the present day The Handbook's Introduction outlines the biography of More the key strands of interpretation and criticism relating to the text the structure of the Handbook and some of its recurring themes and issues An appendix provides an overview of Utopia for readers new to the text

Before Utopia Ross Dealy,2020-03-03 This book explores the influence of Stoicism on the evolution of Thomas More's mind asserting that More's engagement with the work of Erasmus radicalized his understanding of Christianity and shaped the writing of Utopia

The Renaissance John Jeffries Martin,2003 The Renaissance paradigm in crisis Politics language and power Individualism identity and gender Art science and humanism Religion tradition and innovation

Socrates' Daimonic Art Elizabeth S. Belfiore,2012-03-08 A new approach to Plato's characterization of Socrates through analysis of his dialogues on love and friendship

Plain ugly Naomi Baker,2018-04-30 Plain ugly examines depictions of physically repellent characters in a striking range of early modern literary and visual texts offering fascinating insights into the ways in which ugliness and deformity were perceived and represented particularly with regard to gender and the construction of identity The book focuses closely on English literary culture but also engages with wider European perspectives drawing on a wide array of primary sources including Italian and other European visual art Offering illuminating close readings of texts from both high and low culture it will interest scholars in English literature cultural studies women's studies history and art history as well as postgraduate and undergraduate students in these disciplines As an accessible and absorbing account of the power dynamics informing depictions of ugliness and beauty in relation to some of the quirkiest literary and visual material to be found in early modern culture it will also appeal to a wider audience

Nicodemites M. Anne Overell,2018-10-16 In *Nicodemites Faith and Concealment Between Italy and Tudor England* Anne Overell examines a rarely glimpsed aspect of sixteenth century religious strife the thinkers clerics and rulers who concealed their faith This work goes beyond recent scholarly interest in conformity to probe inward dilemmas and the spiritual and cultural meanings of pretence Among the dissimulators who appear here are Cardinal Reginald Pole and his circle in Italy and in England and also John Cheke and William Cecil Although Protestant and Catholic polemicists condemned all Nicodemites most of them survived reformation violence while their habits of silence and secrecy became influential This study concludes that widespread evasion about religious belief contributed to the erratic development of toleration Anne Overell is an accomplished practitioner of history as a sideways glance revealing subtleties and contours that others have missed In doing so she enriches the story of the Reformation and helps us see its humanity and nuance more vividly and completely

Diarmaid MacCulloch Professor of the History of the Church University of Oxford

Logomotives Stephen Spiess,Marjorie Rubright,2025-03-31 Logomotives are words that change worlds past present and future Bearing a wide

range of linguistic regional and disciplinary expertise the volume's twenty-five contributors traverse multiple geographies Asia Africa Iberian Peninsula Europe and the Americas work across fifteen languages and span from antiquity to our current moment to reveal how words are catalysts of cultural political and epistemological change Harnessing new developments in philologies of race in queer feminist trans transnational and postcolonial philologies as well as translation studies Logomotives illuminates the world-making capacity of words Each chapter opens with a methodological statement pursues a central reading and concludes with a lesson plan for undergraduate or graduate classrooms The volume orients critical attention to the relations between what a word means the ways in which it moves and the changes that such motion engenders both within and across the historical cultures under analysis and in present-day scholarship
