Technophobia! Daniel Dinello,2013-08-26 Techno heaven or techno hell If you believe many scientists working in the emerging fields of twenty first century technology the future is blissfully bright Initially human bodies will be perfected through genetic manipulation and the fusion of human and machine later human beings will completely shed the shackles of pain disease and even death as human minds are downloaded into death free robots whereby they can live forever in a heavenly posthuman existence In this techno utopian future humanity will be saved by the godlike power of technology If you believe the authors of science fiction
