Centered and Connected Thea Rytz, 2009-05-12 Centered and Connected presents body based techniques that integrate practices of self reflection and non judgmental awareness in order to foster healing build self esteem and develop a stronger connection to one's body Author Rytz explores the disconnection between the mind and body which can create alienation lack of self acceptance and more serious emotional problems Some of the body areas explored include the head heart hands feet stomach and pelvis as well as body related phenomena such as the breath gravity and the voice Each topic is followed by four simple and enjoyable activities meant to improve the body mind relationship There are 128 activities in all More than 250 photographs and illustrations help readers visualize and utilize the exercises described Thinking with the Dancing Brain

Sandra C. Minton, Rima Faber, 2016-09-14 As seasoned dancers and dance educators Minton and Faber approach brain function from inside the body as embodiment of thought Their collection of neurological research about the thought processes in learning and performing dance encompasses a vision of dance as creative art communication education and life The book informs neuroscientists educators and dancers about the complex interdependence of brain localities and networking of human neurology through an integration of physiology cognition and the art of dance Chapters address observation engagement critical thought emotion memory imagery and imagination learning problem solving and 21st century skills Finer components are explored through neurological networks classroom pedagogy dance and movement experiences that provide Description of the thought processes their components and their neurological functional needs The neurological physiology that has been discovered in the cognitive process How brain function can be applied to the educational classroom Applications of the neurological research to dance education the choreographic process and dance performance Movement explorations for readers to experience the thought processes through dance with neurological knowledge in mind **If the Body Politic Could Breathe in the Age of the Refugee** Julia Metzger-Traber, 2018-05-15

This book posits that the refugee crisis may actually be a crisis of identity in a rapidly changing world It argues that Western conceptions of the individual Self shape metaphors of political homes and thus the geopolitics of belonging and exclusion Metzger Traber creatively re conceives political belonging by perceiving the interconnection of each Self through its most immediate home the breathing body On an experimental literary journey through her own past and that of Germany she puts political philosophy in conversation with somatic and spiritual insight to expand notions of Self and Home Then she asks What ethical imperatives arise What kinds of homes and homelands would we create if we no longer thought we ended at our skin Exploring Body-Mind Centering Gil Wright Miller, Pat Ethridge, Kate Tarlow Morgan, 2011-01-25 Exploring Body

Mind Centering features 35 essays on Body Mind Centering BMC an experiential practice based on the application of

anatomical physiological psychophysical and developmental principles Using the work of BMC founder Bonnie Bainbridge Cohen as a springboard the book showcases diverse situations from medical illness to blocked creativity in which this discipline is applied with transformative results Exploring Body Mind Centering is divided into three sections preceded by an introduction framing BMC as a pathway to becoming aware of relationships that exist throughout the body and mind and using that awareness to act The first section lays the groundwork for this process with real life experiences and exercises that encourage readers to interact with the text Section two contains valuable case stories describing the experiences of BMC students and practitioners as they work with clients Section three shows how BMC can be integrated with other disciplines and practices that include the arts medicine and yoga The book concludes with a biography of Cohen a profile of the School for Body Mind Centering and a history of BMC
