This companion provides a two part introduction to best selling author Stephen King whose enormous popularity over the years has gained him an audience well beyond readers of horror fiction, the genre with which he is most often associated. Part I considers the reception of King's work, the film adaptations that they gave rise to, the fictional worlds in which some of his novels are set and the more useful approaches to King's varied corpus. Part II consists of entries for each series, novel, story, screenplay and even poem including works never published or produced as well as characters and settings. **Encyclopedia of the American Short Story** Abby H. Selected by a poll of more than 180 Gothic specialists, creative writers, professors, critics and Gothic Studies program developers at universities, the fifty three original works discussed in 21st Century Gothic represent the most impressive Gothic novels written around the world between 2000-2010. The essays in this volume discuss the merits of these novels, highlighting the influences and key components that make them worthy of inclusion. Many of the pioneer voices of Gothic Studies as well as other key critics of the field have all contributed new essays to this volume including David Punter, Jerrold Hogle, Karen F. Stein, Marie Mulvey Roberts, Mary Ellen Snodgrass, Tony Magistrale, Don D. Ammassa, Mavis Haut.
