Film Studies, second edition Ed Sikov, 2020-06-09 Film Studies is a concise and indispensable introduction to the formal study of cinema Ed Sikov offers a step by step curriculum for the appreciation of all types of narrative cinema detailing the essential elements of film form and systematically training the spectator to be an active reader and critic He treats a number of fundamental factors in filmmaking including editing composition lighting the use of color and sound and narrative His description of mise en scene helps readers grasp the significance of montage which in turn reveals the importance of a director's use of camera movement Film Studies is designed for courses on film history film theory and popular culture Its straightforward explanations of core critical concepts practical advice and technical visual and aesthetic aspects anchor the reader's understanding of the formal language and anatomy of film and the techniques of film analysis The second edition of this best selling textbook adds two new chapters Film and Ideology which covers how to read a film's political and social content and other key topics in film theory and Film Studies in the Age of Digital Cinema which explores the central problems of studying film when film itself is no longer the medium

Beyond Tests and Quizzes Richard J. Mezeske, 2007-10-12
Beyond Tests and Quizzes Because the drive toward external assessment speaks almost exclusively in terms of standardized testing we need to be reminded of the internal purposes of assessment measuring learning for both student and teacher so that instruction can be adjusted and improved This book is written for college instructors who are striving to creatively change assessment practice to better reflect learner centered teaching It is intended to consider not only the multiple ways in which individuals learn content but also the multiple avenues to assessment the variety of learning styles demands Creative assessment is defined here as assessments that spin twist and reform what might be a standard kind of assessment in an ordinary classroom Instructors should use these examples of creative assessment as starting points and as the beginnings of an internal discussion on what matters most in the courses they teach What components of each course count the most for solving a range of problems in the discipline If facts are important and they usually are how can they be used to support a flexible approach to thinking solving considering options and gathering and interpreting evidence What are the facts not telling us The approaches suggested in this book focus on learning on what students can do as a result of learning and on how teachers can observe what students do The assessment models presented here include concept mapping variable grading learning logs moving from memorization to analysis making labs more practical exams as learning experiences web based assessment thinking styles tracking learning over time and assessment in the real world Each translates to a range of academic settings and is easily adaptable for use by a variety of instructors in any discipline

Secrets of a Charmed Life
Susan Meissner, 2015-02-03 The author of A Bridge Across the Ocean and The Last Year of the War journeys from the present day to World War II England as two sisters are separated by the chaos of wartime Current day Oxford England Young American scholar Kendra Van Zant eager to pursue her vision of a perfect life interviews Isabel McFarland just when the

elderly woman is ready to give up secrets about the war that she has kept for decades beginning with who she really is What Kendra receives from Isabel is both a gift and a burden one that will test her convictions and her heart 1940s England As Hitler wages an unprecedented war against London s civilian population hundreds of thousands of children are evacuated to foster homes in the rural countryside But even as fifteen year old Emmy Downtree and her much younger sister Julia find refuge in a charming Cotswold cottage Emmy s burning ambition to return to the city and apprentice with a fashion designer pits her against Julia s profound need for her sister s presence Acting at cross purposes just as the Luftwaffe rains down its terrible destruction the sisters are cruelly separated and their lives are transformed

Story Work/Story Play Mary LaMont,2023-05-02 A central assumption of narrative spirituality is that the act of retelling the story of episodes of our lives can help us better see the larger Guiding Story that God dreams for us When I can see my Guiding Story more clearly I am better able to handle crisis and transition and better able to see my true purpose Story Work Story Play lays out a four door method of spirituality that invites participants to explore their Guiding Story through four doors that correspond to the four parts of any story a main character a problem to solve the power needed to solve it and the action taken by the main character The chapter for each of these four doors provides theological psychological and scriptural foundations for the narrative method and includes up to ten to fifteen story work story play exercises the reader can use to practice the method Each chapter also includes profile stories of real people who have discovered layers of their own Guiding Stories The book ends each chapter with a Guided Visualization The book s final chapter explains how members of a narrative circle can use the narrative spirituality tools of this book to discern each one s own unique Guiding Story

Intelligent Tutoring Systems James C. Lester,Rosa Maria Vicari,Fábio Paraguacu,2004-08-19 This book constitutes the refereed proceedings of the 7th International Conference on Intelligent Tutoring Systems ITS 2004 held in Macei Alagoas Brazil in August September 2004 The 73 revised full papers and 39 poster papers presented together with abstracts of invited talks panels and workshops were carefully reviewed and selected from over 180 submissions The

papers are organized in topical sections on adaptive testing affect architectures for ITS authoring systems cognitive modeling collaborative learning natural language dialogue and discourse evaluation machine learning in ITS pedagogical agents student modeling and teaching and learning strategies

Critical Issues in User Interface Systems Engineering David Benyon, Philippe Palanque, 2012-12-06 This book developed from an IFIP workshop which brought together methods and architecture researchers in Human Computer Interaction and Software Engineering To an extent this introduction is a little unfair to the authors as we have distilled the results of the workshop to give the reader a perspective of the problems within integrated approaches to usability engineering The papers could not hope to address all of the issues however we hope that a framework will help the reader gain further insights into current research and future practice The initial motivation was to bring together researchers and practitioners to exchange their experiences on Graphical User Interface design problems The two groups represented methodological and architecture tools interests so the workshop focused on intersection of how methods can support user interface development and vice versa how tools architectures and reusable components can empower the design process There is we believe a constructive tension between these two communities Methodologists tend to approach the design problem with task domain organisational analysis while the tool builders suggest design empowerment envisioning as a means of improving the way users work rather than relying on analysis of current systems This debate revolves around the questions of whether users current work is optimal or whether designers have the insight to empower users by creating effective solutions to their problems Tool builders typically want to build something then get the users to try it while the methodologists want to specify something validate it and then build it
