Woman Man And God In Modern Islam:

Woman, Man, and God in Modern Islam Theodore Friend, 2012 Award winning historian Theodore Friend recently set out alone across Asia and the Middle East on a quest to understand firsthand the life situations of women in Indonesia Pakistan Saudi Arabia Iran and Turkey *Woman Man and God in Modern Islam* recounts Friend's remarkable journey and relates hundreds of encounters and conversations with people he met along the way Commingling a deep respect for Islam and his faith in the potential of women to change their worlds Friend presents an open exploratory outsider's perspective on women in five very different Islamic cultures timely fare for all who wish to broaden their world horizons *Controversies in Contemporary Islam* Oliver Leaman, 2013-10-08 This book helps to deepen our understanding of the varieties of contemporary Islam and the issues that are of most concern to Muslims today Oliver Leaman explores some of the controversies and debates that exist within Islam and between Islam and other religions He considers how the religion can be defined by looking at the contrast between competing sets of beliefs and arguments amongst Muslims themselves over the nature of the faith Areas covered include Qur'anic interpretation gender finance education and nationalism Examples are taken from a range of contexts and illustrate the diversity of approaches to Islam that exists today **Feminism, Tradition and Change in Contemporary Islam** Shehnaz Haqqani, 2024-10-17 The Islamic tradition has always been flexible changing over time and constantly adapting to the different societies Muslims find themselves in Few Muslims today would abide by the fatwa against the printing press under the Ottomans Moreover although Islamic law legislates for slavery and child marriage only a vanishing minority of Muslims consider these practices acceptable today and some will even argue that Islam never permitted them Yet some issues like the prohibition on female led prayer and female interfaith marriage seem curiously impervious to change Why is that Through a mixture of interviews with ordinary Muslims in Texas and critical analysis of contemporary and historical scholarship Shehnaz Haqqani demonstrates the gendered dimensions of change and negotiation in Islamic tradition She argues that a reliance on a mostly male scholarly consensus means that the tradition preserves male privilege at the expense of justice for Muslim women **The Changing World Religion Map** Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions faiths and practices It discusses a broad range of issues and phenomena that are related to religion including nature ethics secularization gender and identity Broadening the context it studies the interrelation between religion and other fields including education business economics and law The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions Beginning with an introduction of the concept of the changing world religion map the book first focuses on nature ethics and the environment It examines humankind's eternal search for the sacred and discusses the emergence of green religion as a theme that cuts across many faiths Next the book turns to the theme of the pilgrimage illustrated by many examples from all parts of the world In its discussion of the interrelation between religion and education

it looks at the role of missionary movements It explains the relationship between religion business economics and law by means of a discussion of legal and moral frameworks and the financial and business issues of religious organizations The next part of the book explores the many new faces that are part of the religious landscape and culture of the Global North Europe Russia Australia and New Zealand the U S and Canada and the Global South Latin America Africa and Asia It does so by looking at specific population movements diasporas and the impact of globalization The volume next turns to secularization as both a phenomenon occurring in the Global religious North and as an emerging and distinguishing feature in the metropolitan cosmopolitan and gateway cities and regions in the Global South The final part of the book explores the changing world of religion in regards to gender and identity issues the political religious nexus and the new worlds associated with the virtual technologies and visual media

Contemporary Issues in Islam Asma Afsaruddin, 2015-08-31 This book deals with certain hot button contemporary issues in Islam that are often the focus of public scrutiny including the Sharia jihad the caliphate women s status and interfaith relations Notably it places the discussion of these topics within a longer historical framework in order to reveal their multiple interpretations and contested applications over time Most public and some academic discourses however present the Islamic tradition as unchanging and therefore unable to respond to the modern world Such an ahistorical approach fosters the belief that Muslim and Western societies are destined to clash with one another In contrast this book allows the reader to see the diversity and transformations within Islamic thought over time Focusing on this internal diversity permits us to appreciate the scriptural and intellectual resources available within the Islamic tradition for responding to the challenges of modernity even as it interrogates and shapes modernity itself

The Position of Women in Islam Mohammad Ali Syed, 2012-02-01 Challenging the conservative framers of Islamic law who accorded a lesser status to women Mohammad Ali Syed argues that the Quran and the Hadith the two primary sources of Islamic law actually place Muslim women on the same level as Muslim men Syed provides an overview of both sources and explores their respective roles in Islamic law emphasizing the Quran s role as the supreme authority and questioning the authenticity of some of the alleged sayings of the Prophet Muhammad pbuh From these texts he elaborates women s rights in a variety of areas including treatment by God marriage divorce financial provisions and custody of children coming out of seclusion purdah and taking part in social economic legal and political activities Rather than presenting what is practiced today the book covers the theoretical position of Muslim women as sanctioned by the Quran and the authentic Hadith and offers a glimpse of the exalted position of honor and dignity enjoyed by Muslim women in the early days of Islam This well researched book is made more distinctive by the author s personal experience Raised in Bengal India Syed was inspired by his family who valued men and women equally As he grew up Syed realized that most Muslim women lived very differently than the women of his family According to the author his family was egalitarian because his father and male relatives were not only devout Muslims but also very knowledgeable about Islam This book is a culmination of his lifelong concern for

women s rights under Islam **Contemporary Rationalist Islam in Turkey** Gokhan Bacik,2021-07-29 Nineteenth century Istanbul was an intellectual hub of rich discussions about Islam in which leading reformists had a significant role Turkey today appears to be an intellectual vacuum to anyone searching for ongoing critical engagement with Islam The main purpose of this book is to adjust this view of Turkey by showcasing the modern Turkish theologians who challenge mainstream Sunni interpretations of Islam Labelling these theologians as rationalist rather than reformist the author reveals that their theology is inherently anti establishment and thus a religiously oriented challenge to the hegemony of the state sanctioned Islam for the rationalists Turkey s problems have their origins in the Sunni interpretation of Islam Contemporary Rationalist Islam in Turkey analyses nine prominent scholars of Islam who provide a religious opposition to the Sunni revival in Turkey H seyin Atay Yasar Nuri zt rk M Hayri Kirbasoglu Ilhami G ler R Ihsan Elia ik mer zsoy Mustafa zt rk Israfil Balci and Mehmet Azimli These scholars writings are almost exclusively published in Turkish so this book makes their ideas available in English for the first time It also examines the scope methodology and argumentation of the scholars theology categorizing their theological interpretations from historicist to universalist and from empiricist to rationalist In identifying a new rationalist school of Turkish theology and outlining its different manifestations the book breaks new ground It fills a significant gap in the literature on Islamic studies and reveals an understudied dimension of Turkey and Turkish Islam beyond the well known ideas of the AKP and the Gulenists **Changing God's Law** Nadjma Yassari,2016-06-03 This volume identifies and elaborates on the significance and functions of the various actors involved in the development of family law in the Middle East Besides the importance of family law regulations for each individual family law has become the battleground of political and social contestation Divided into four parts the collection presents a general overview and analysis of the development of family law in the region and provides insights into the broader context of family law reform before offering examples of legal development realised by codification drawn from a selection of Gulf states Iran and Egypt It then goes on to present a thorough analysis of the role of the judiciary in the process of lawmaking before discussing ways the parties themselves may have shaped and do shape the law Including contributions from leading authors of Middle Eastern law this timely volume brings together many isolated aspects of legal development and offers a comprehensive picture on this topical subject It will be of interest to scholars and academics of family law and religion *Changing Gender Norms in Islam Between Reason and Revelation* Marziyeh Bakhshizadeh,2018-07-16 Women s movements in Islamic countries have had a long and arduous journey in their quest for the realization of human rights and genuine equality The author examines whether discriminatory laws against women do in fact originate from Islam and ultimately if there is any interpretation of Islam compatible with gender equality She investigates women s rights in Iran since the 1979 Revolution from the perspectives of the main currents of Islamic thought fundamentalists reformists and seculars using a sociological explanation **A New Introduction to Islam** Daniel W.
