Women And Development In Africa How Gender Works:

Women and Development in Africa Michael Kevane, 2004 Kevane explores gender issues in Africa in the context of the continent's poor economic performance The Oxford Handbook of Africa and Economics Célestin Monga, Justin Yifu Lin, 2015-07-02 A popular myth about the travails of Africa holds that the continent's long history of poor economic performance reflects the inability of its leaders and policymakers to fulfill the long list of preconditions to be met before sustained growth can be achieved These conditions are said to vary from the necessary quantity and quality of physical and human capital to the appropriate institutions and business environments While intellectually charming and often elegantly formulated that conventional wisdom is actually contradicted by historical evidence and common sense It also suggests a form of intellectual mimicry that posits a unique path to prosperity for all countries regardless of their level of development and economic structure In fact the argument underlining that reasoning is tautological and the policy prescriptions derived from it are fatally teleological low income countries are by definition those where such ingredients are missing None of today's high income countries started its growth process with the required and complete list of growth ingredients Unless one truly believes that the continent of Africa and most developing countries are ruled predominantly if not exclusively by plutocrats with a high propensity for sadomasochism the conventional view must be re examined debated and questioned This volume the second of the Oxford Handbook of Africa and Economics reassesses the economic policies and practices observed across the continent since independence It offers a collection of analyses by some of the leading economists and development thinkers of our time and reflects a wide range of perspectives and viewpoints Africa's emergence as a potential economic powerhouse in the years and decades ahead amply justifies the scope and ambition of the book **Women's**

Empowerment for Sustainability in Africa Robert Dibie, 2019-01-17 This book uses an open explorative approach to deal with the different aspects of gender discrimination and gender empowerment policies as well as their impact on economic development and capacity building in several African countries It uses primary and secondary data to present the argument that without the full input of women sustainable development will not be achieved in many African countries This book is the first text written by knowledgeable gender issue experts that understand the culture of and lived and conducted research in Africa It provides many examples of the relationships between gender and economic development around the African continent highlighting different processes and practices As such the contributors here illustrate the impact of weak gender policies and the ability to adequately develop female capacity building that could lead to wide spread sustainable economic growth in Africa They also explore a wide range of new dimensions and variables that are commonly ignored by other text books on gender equality The book will help graduate undergraduate students and other readers to understand women's policies in the past present and future by analysing and illustrating cultural political and socio historical contexts which have shaped women's role in the economic and sustainable development of Africa **Development In Modern Africa** Martin S.

Shanguhya, Toyin Falola, 2019-10-08 Development in Modern Africa Past and Present Perspectives contributes to our understanding of Africa's experiences with the development process. It does so by adopting a historical and contemporary analysis of this experience. The book is set within the context of critiques on development in Africa that have yielded two general categories of analysis: skepticism and pessimism. While not overlooking the shortcomings of development, the themes in the book express an optimistic view of Africa's development experiences, highlighting elements that can be tapped into to enhance the condition of African populations and their states. By using case studies from precolonial, colonial, and postcolonial Africa, contributors to the volume demonstrate that human instincts to improve material, social, and spiritual worlds are universal. They are not limited to the Western world, which the term and process of development are typically associated with. Before and after contact with the West, Africans have actively created institutions and values that they have actively employed to improve individual and community lives. This innovative spirit has motivated Africans to integrate or experiment with new values and structures, challenges, and solutions to human welfare that resulted from contact with colonialism and the postcolonial global community. The book will be of interest to academics in the fields of history, African studies, and regional studies. The Feminization of Development Processes in Africa James S. Etim, Valentine U. James, 1999-04-30

Women have historically provided vision and leadership to African countries and are now being recognized as pivotal to the overall sustainable development of Africa. In many cases, however, this recognition has not resulted in the empowerment of African women, who still face great discrimination. This edited volume explores the contributions women have made to all phases of development: planning, design, construction, implementation, and operation, and the obstacles they have had to face. Besides analyzing the current situation and identifying trends, the contributors also make recommendations for policy reform and for future planning.

Africa Eustace Palmer, 2021-07-01 Africa: An Introduction invites you into Africa, a continent rich with culture and history, with diverse populations stretching from the dense tropical rain forest of the Congo basin right up to the Sahara Desert in the north and down to the Mediterranean climates of the far south. Containing fifty-five countries and covering over 20 percent of the world's landmass, Africa is the birthplace of humanity, yet the image of Africa in the West is often negative, that of a continent riddled with endemic problems. This accessible and engaging guide to the African continent guides the reader through the history, geography, and politics of Africa. It ranges from the impact of slavery and imperialism through to the rise of African nationalism and the achievement of independence, and up to the present moment. Key topics covered include literature, art, technology, religion, the condition of African women, health, education, and the mounting environmental concerns faced by African people. As Africa moves beyond the painful legacies of slavery and imperialism, this book provides an engaging, uplifting, and accessible introduction to a rapidly modernizing and diverse continent. Suitable for high school and undergraduate students studying Africa, this book will also serve as the perfect introduction for anyone looking to understand the history of Africa and the Africa of today. *The Handbook of Social Work and Social Development*

in Africa Mel Gray, 2016-10-26 All recent books on international social work mention Africa only briefly and few engage with the broader field of development studies This book focuses solely on the unique African context engaging with issues relating to social work and development more broadly thus enabling a deeper examination and more complex and nuanced picture to emerge Unlike most academic works this book highlights multiple practitioner voices with authors or co authors that have recently been or are currently practising social workers As an edited book it draws from both academic research as well as lived practice experience supported by strong theoretical positioning and guidance in introductory chapters drawing on African literature wherever possible Looking at case studies from Lesotho Botswana Kenya Zimbabwe Ethiopia Namibia Uganda Nigeria Kenya South Africa Rwanda Zambia and Tanzania and covering established areas of practice such as child protection working with older people working with people with disabilities mental health and mainstream services targeting women as well as emerging areas of developmental social work practice such as humanitarian assistance in post conflict situations work with immigrants and refugees and the training of community based workers this book takes a future oriented perspective that aims to move beyond well worn critiques to envision constructive and sustainable futures for social work and social development in Africa from a critical perspective

Women, Work and Welfare in the Middle East and North Africa Nadereh Chamlou, Massoud Karshenas, 2015 In the aftermath of the Arab Spring and in light of socio economic and geopolitical challenges facing governments old and new women s rights and empowerment have gained new urgency and relevance Groups in power or groups contesting for power are more conservative than expected and there are serious threats to roll back some of the gains women had achieved over the past 20 30 years on economic and social fronts The global gender debate has neglected the economic dimension of women s empowerment and a great deal of debate and interest among researchers is needed to push the topics further This timely book brings together leading regional researchers to offer original research linking gender equality with economic policy reinforcing the agenda from a broad based perspective Publisher summary

Gender Equality and Economic Development in Sub-Saharan Africa Ms. Lisa L Kolovich, Ms. Monique Newiak, 2024-04-11 Efforts to achieve gender equality will not only help sub Saharan Africa revive its inclusive growth engine but also will ensure progress towards the Sustainable Development Goals and help address the main disruptive challenges of this century This book explores the progress made in gender equality in the region highlighting both the challenges and successes in areas such as legal reforms education health gender based violence harmful practices such as child marriage and financial inclusion It takes stock of initiatives towards integrating gender into core macroeconomic and structural reforms such as through implementing gender budgeting and examines the role that fiscal and other policies can play in closing gender gaps when they are mindful of distributional impacts Drawing from extensive research across different institutions the book underscores the macroeconomic significance of gender equality emphasizing its potential to drive GDP growth enhance economic stability reduce income inequality and foster sustainable development It lays out how gender gaps

interact with emerging challenges such as digitalization and explores the impact of global megatrends such as climate change on gender inequality offering strategies for inclusive policy responses including in a context where women and girls are still carrying a disproportionate care burden that is often not captured in economic measurement The book aims to serve as a roadmap for policymakers stakeholders and advocates seeking to harness the untapped potential of gender equality for its own sake and for the region s inclusive sustainable and green development It calls for concerted efforts to dismantle structural barriers transform social norms and prioritize gender responsive policies to unlock the full economic potential of sub Saharan Africa

Professional Social Work in East Africa Helmut Spitzer,M. Twikirize,2014-10-28 Prevalent poverty and related problems in the East African region call for substantial action from various stakeholders including social workers This book based on comprehensive empirical research portrays an emerging yet powerful profession that has a significant role to play in the endeavour towards social development social justice human rights and gender equality The book is the first of its kind to provide first hand theoretical and empirical evidence about social work in East Africa
