Zambrana,2009-01-01 The United States is known as a melting pot yet this mix tends to be volatile and contributes to a long history of oppression racism and bigotry Emerging Intersections an anthology of ten previously unpublished essays looks at the problems of inequality and oppression from new angles and promotes intersectionality as an interpretive tool that can be utilized to better understand the ways in which race class gender ethnicity and other dimensions of difference shape our lives today The book showcases innovative contributions that expand our understanding of how inequality affects people of color demonstrates the ways public policies reinforce existing systems of inequality and shows how research and teaching using an intersectional perspective compels scholars to become agents of change within institutions By offering practical applications for using intersectional knowledge Emerging Intersections will help bring us one step closer to achieving positive institutional change and social justice

Closer to Freedom Stephanie M. H. Camp,2005-10-12 Recent scholarship on slavery has explored the lives of enslaved people beyond the watchful eye of their masters Building on this work and the study of space social relations gender and power in the Old South Stephanie Camp examines the everyday containment and movement of enslaved men and especially enslaved women In her investigation of the movement of bodies objects and information Camp extends our recognition of slave resistance into new arenas and reveals an important and hidden culture of opposition Camp discusses the multiple dimensions to acts of resistance that might otherwise appear to be little more than fits of temper She brings new depth to our understanding of the lives of enslaved women whose bodies and homes were inevitably political arenas Through Camp s insight truancy becomes an act of pursuing personal privacy Illegal parties frolics become an expression of bodily freedom And bondwomen who acquired printed abolitionist materials and posted them on the walls of their slave cabins even if they could not read them become the subtle agitators who inspire more overt acts The culture of opposition created by enslaved women s acts of everyday resistance helped foment and sustain the more visible resistance of men in their individual acts of running away and in the collective action of slave revolts Ultimately Camp argues the Civil War years saw revolutionary change that had been in the making for decades

The White Racial Frame Joe R. Feagin,2013-08-21 In this book Joe Feagin extends the systemic racism framework in previous Routledge books by developing an innovative concept the white racial frame Now four centuries old this white racial frame encompasses not only the stereotyping bigotry and racist ideology emphasized in other theories of race but also the visual images array of emotions sounds of accented language interlinking interpretations and narratives and inclinations to discriminate that are still central to the frame s everyday operations Deeply imbedded in American minds and institutions this white racial frame has for centuries functioned as a broad worldview one essential to the routine legitimation scripting and maintenance of systemic racism in the United States Here Feagin examines how and why this white racial frame emerged in North America how and why it has evolved socially over time which racial groups are framed within it how it has operated in the past and in the present for both white Americans and Americans of color and how the latter have long responded with strategies of

resistance that include enduring counter frames In this new edition Feagin has included much new interview material and other data from recent research studies on framing issues related to white black Latino and Asian Americans and on society generally The book also includes a new discussion of the impact of the white frame on popular culture including on movies video games and television programs as well as a discussion of the white racial frame s significant impacts on public policymaking immigration the environment health care and crime and imprisonment issues Choice and Coercion Johanna Schoen,2009-10 In August 2003 North Carolina became the first U S state to offer restitution to victims of state ordered sterilizations carried out by its eugenics program between 1929 and 1975 The decision was prompted by newspaper stories based on the research of Johanna Schoen who was granted unique access to summaries of 7 500 case histories and the pa

Rethinking the History of American Education W. Reese,J. Rury,2007-12-25 This collection of original essays examines the history of American education as it has developed as a field since the 1970s and moves into a post revisionist era and looks forward to possible new directions for the future Contributors take a comprehensive approach beginning with colonial education and spanning to modern day while also looking at various aspects of education from higher education to curriculum to the manifestation of social inequality in education The essays speak to historians educational researchers policy makers and others seeking fresh perspectives on questions related to the historical development of schooling in the United States *Our Minds on Freedom* Shannon Frystak,2009-12-01 Literature on the civil rights movement has long highlighted the leadership of ministerial men and young black revolutionaries such as Reverend Martin Luther King Jr Stokely Carmichael and Malcolm X Recent studies have begun to explore female participation in the struggle for racial justice but women continue to be relegated to the margins of civil rights history In *Our Minds on Freedom* Shannon Frystak explores the organizational and leadership roles female civil rights activists in Louisiana played from the 1920s to the 1960s She highlights a diverse group of courageous women who fought alongside their brothers and fathers uncles and cousins to achieve a more racially just Louisiana From the Depression through World War II and the postwar years Frystak shows black women in Louisiana joined and led local unions and civil rights organizations agitating for voting rights and equal treatment in the public arena in employment and in admission to the state s institutions of higher learning At the same time black and white women began to find common ground in organizations such as the YWCA the NAACP and the National Urban League Frystak explores how women of both races worked together to organize the 1953 Baton Rouge bus boycott which served as inspiration for the more famous Montgomery bus boycott two years later to alter the system of unequal education throughout the state and to integrate New Orleans schools after the 1954 Brown decision In the early 1960s a new generation of female activists joined their older counterparts to work with the NAACP the Congress of Racial Equality and a number of local grassroots civil rights organizations Frystak vividly describes the very real dangers they faced canvassing for voter registration in Louisiana s rural areas teaching in Freedom Schools and hosting out of town civil rights workers in their

homes As Frystak shows the civil rights movement allowed women to step out of their prescribed roles as wives mothers and daughters and become significant actors indeed leaders in a social change structure largely dominated by men Our Minds on Freedom is a welcome addition to the literature of the civil rights movement and will intrigue those interested in African American history women s history Louisiana or the U S South

One Nation Divisible Michael B. Katz, Mark J. Stern, 2006-03-16 American society today is hardly recognizable from what it was a century ago Integrated schools an information economy and independently successful women are just a few of the remarkable changes that have occurred over just a few generations Still the country today is influenced by many of the same factors that revolutionized life in the late nineteenth century immigration globalization technology and shifting social norms and is plagued by many of the same problems economic social and racial inequality One Nation Divisible a sweeping history of twentieth century American life by Michael B Katz and Mark J Stern weaves together information from the latest census with a century s worth of data to show how trends in American life have changed while inequality and diversity have endured One Nation Divisible examines all aspects of work family and social life to paint a broad picture of the American experience over the long arc of the twentieth century Katz and Stern track the transformations of the U S workforce from the farm to the factory to the office tower Technological advances at the beginning and end of the twentieth century altered the demand for work causing large population movements between regions These labor market shifts fed both the explosive growth of cities at the dawn of the industrial age and the sprawling suburbanization of today One Nation Divisible also discusses how the norms of growing up and growing old have shifted Whereas the typical life course once involved early marriage and living with large extended families Americans today commonly take years before marrying or settling on a career path and often live in non traditional households Katz and Stern examine the growing influence of government on trends in American life showing how new laws have contributed to more diverse neighborhoods and schools and increased opportunities for minorities women and the elderly One Nation Divisible also explores the abiding economic paradox in American life while many individuals are able to climb the financial ladder inequality of income and wealth remains pervasive throughout society The last hundred years have been marked by incredible transformations in American society Great advances in civil rights have been tempered significantly by rising economic inequality One Nation Divisible provides a compelling new analysis of the issues that continue to divide this country and the powerful role of government in both mitigating and exacerbating them A Volume in the Russell Sage Foundation Census Series

The Love Jones Cohort Kris Marsh, 2023-02-09 Drawing from stratification economics intersectionality and respectability politics *The Love Jones Cohort* centers on the voices and lifestyles of members of the Black middle class who are single and living alone (SALA). While much has been written about both the Black middle class and the rise of singlehood this book represents a first foray into bridging these two concepts. Mothering for Schooling Alison Griffith, Dorothy Smith, 2005-07-08 This book looks at the relationship between the work women do with and for their children in relation to schooling.

From Welfare to Workfare Jennifer Mittelstadt, 2006-03-08 In 1996 Democratic president Bill Clinton and the Republican controlled Congress ended welfare as we know it and trumpeted workfare as a dramatic break from the past. But in fact workfare was not new. Jennifer Mittelstadt locates the roots of the 1996 welfare reform many decades in the past arguing that women work and welfare were intertwined concerns of the liberal welfare state beginning just after World War II. Mittelstadt examines the dramatic reform of Aid to Dependent Children (ADC) from the 1940s through the 1960s demonstrating that in this often misunderstood period national policy makers did not overlook issues of poverty race and women's role in society. Liberals' public debates and disagreements over welfare however caused unintended consequences she argues including a shift toward conservatism. Rather than leaving ADC as an income support program for

needy mothers reformers recast it as a social services program aimed at rehabilitating women from dependence on welfare to independence largely by encouraging them to work Mittelstadt reconstructs the ideology implementation and consequences of rehabilitation probing beneath its surface to reveal gendered and racialized assumptions about the welfare poor and broader societal concerns about poverty race family structure and women s employment *Revealing Britain's Systemic Racism* Kimberley Ducey,Joe Feagin,2021-03-31 Revealing Britain s Systemic Racism applies an existing scholarly paradigm systemic racism and the white racial frame to assess the implications of Markle s entry and place in the British royal family including an analysis that bears on visual and material culture The white racial frame as it manifests in the UK represents an important lens through which to map and examine contemporary racism and related inequities By questioning the long held but largely anecdotal beliefs about racial progressiveness in the UK the authors provide an original counter narrative about how Markle s experiences as a biracial member of the royal family can help illumine contemporary forms of racism in Britain Revealing Britain s Systemic Racism identifies and documents the plethora of ways systemic racism continues to shape ecological spaces in the UK Kimberley Ducey and Joe R Feagin challenge romanticized notions of racial inclusivity by applying Feagin s long established work aiming to make a unique and significant contribution to literature in sociology and in various other disciplines *Souls of W.E.B. Du Bois* Alford A. Young,Jerry Gafio Watts,Manning Marable,Charles C. Lemert,Elizabeth Higginbotham,2019-10-25 This work marks the recent passing of the 100th Anniversary of Du Bois classic of African American literature More than fifty events and celebrations were held in cities and universities around the country It poignantly explores the relationship of Du Bois the man to his writings It is written by expert team of authors including the prominent Manning Marable The Souls of W E B Du Bois explores the relationship of W E B Du Bois seminal book The Souls of Black Folk to other works in his scholarly portfolio and to his larger project concerning race racial identity and the social objectives of scholarly engagement Prominent authors consider why the classic book remains so relevant today **Choice & Coercion** , *Choice & Coercion (EasyRead Edition)* , Beyond the Black Lady Lisa B. Thompson,2023-12-11 In this book Lisa B Thompson explores the representation of black middle class female sexuality by African American women authors in narrative literature drama film and popular culture showing how these depictions reclaim black female agency and illustrate the difficulties black women confront in asserting sexual agency in the public sphere Thompson broadens the discourse around black female sexuality by offering an alternate reading of the overly determined racial and sexual script that casts the middle class black lady as the bastion of African American propriety Drawing on the work of black feminist theorists she examines symptomatic autobiographies novels plays and key episodes in contemporary American popular culture including works by Anita Hill Judith Alexa Jackson P J Gibson Julie Dash Kasi Lemmons Jill Nelson Lorene Cary and Andrea Lee
