Prosser Wade Schwartz's Torts Tenth Edition is carefully edited combining important developments with the great traditional landmarks of tort law PROSSER, WADE, AND SCHWARTZ'S TORTS, CASES AND MATERIALS. KATHRYN. PARTLETT KELLY (DAVID F.), 2024 PROSSER, WADE, AND SCHWARTZ'S TORTS, CASES AND MATERIALS. , 2024 *Torts: Cases and Materials: Seventh Edition* William L. Prosser, John W. Wade, Victor E. Schwartz, Current Publications in Legal and Related Fields , 2002 Tort Law Defences James Goudkamp, 2014-07-18 The law of torts recognises many defences to liability While some of these defences have been explored in detail scant attention has been given to the theoretical foundations of defences generally In particular no serious attempt has been made to explain how defences relate to each other or to the torts to which they pertain The goal of this book is to reduce the size of this substantial gap in our understanding of tort law The principal way in which it attempts to do so is by developing a taxonomy of defences The book shows that much can be learned about a given defence from the way in which it is classified This book has been awarded Joint Second Prize for the 2014 Society of Legal Scholars Peter Birks Prize for Outstanding Legal Scholarship *Economic Analysis of Tort Law* Malabika Pal, 2019-09-02 This book looks at the negligence concept of tort law and studies the efficiency issue arising from the determination of negligence It does so by scrutinizing actual court decisions from three common law jurisdictions Britain India and the United States of America This volume fills a very significant gap scrutinizing 52 landmark judgments from these three countries by focussing on the negligent infliction of economic loss determined by common law courts and how these findings relate to the existing theoretical literature By doing so it examines the formalization of legal concepts in theory primarily the question of negligence determination and liability and their centrality in theories concerning tort law This book will be very helpful for students professors and practitioners of law jurisprudence and legal theory It will additionally be of use to researchers and academics interested in law and economics procedure and legal history
