Transdermal Magnesium Therapy:

Transdermal Magnesium Therapy Dr. Mark Sircus, 2011-07-07 This second edition of Transdermal Magnesium Therapy offers a full medical review of how magnesium affects cancer the heart diabetes the emotions inflammation surgery autism transdermal medicine and so much more Magnesium is nothing short of a miracle it has the potential to save you from considerable suffering and pain The information presented here could even save your life Magnesium is the lamp of life and one of the most important keys to overall health When applied in the correct way magnesium offers us a return to strength and vigor When used in the emergency room magnesium can save the day for both heart and stroke patients What you will be introduced to is magnesium oil a natural concentrated form of magnesium chloride that can be applied directly to the skin for intense effect When we are deficient in magnesium over three hundred enzymes in our body are unable to function properly Magnesium deficiency has been scientifically identified as a critical factor in the onset of a wide variety of diseases For various reasons and to varying degree two thirds or more of the population is magnesium deficient Learn how to use this powerful secret to good health in Transdermal Magnesium Therapy [Transdermal Magnesium Therapy Course](#) Galina St George, 2018-12-21 Transdermal Magnesium Therapy Course for Clinic and Home Use is part of a Mineral Healing Courses series written by Galina St George who is the creator and owner of Pure Nature Cures School of Mineral and Spa Therapies Magnesium is rightly called the miracle mineral There are few minerals which attract so much attention and instigate so much scientific research The reason is that it not only participates in over 300 biochemical reactions in the body but helps maintain so many bodily functions such as the normal muscle and nerve function steady heart rhythm normal blood pressure healthy immune system and strong bones It also helps maintain the blood sugar at normal levels It plays a vital role in preventing heart disease diabetes cancer osteoporosis and a whole range of other dangerous and debilitating diseases Magnesium deficiency is more common than we realise It can be explained by a number of factors with the main reasons being depletion of soil in minerals worldwide due to intensive agriculture Another factor is a compromised digestive tract which includes a large number of people young and old According to American nutritionists an average adult needs 200mg more magnesium per day than what is obtained from a diet The fact is that the dietary magnesium is not sufficient in providing the body with this important mineral Dr Calolyn Dean lists the following conditions which develop in cases of magnesium deficiency or and require magnesium supplementation Acid reflux Adrenal fatigue Alzheimer s disease Angina Anxiety and panic attacks Arthritis Asthma Atherosclerosis Blood clots Bowel disease Brain dysfunction Bruxism or teeth grinding Cholesterol elevation cystitis Depression Detoxification Diabetes Fatigue Headaches Heart disease Hypertension Hypoglycemia Indigestion Inflammation Insomnia IBS Kidney disease Kidney stones Migraine Musculo skeletal conditions muscle cramps fibrositis fibromyalgia GI spasms tension headaches muscle spasms or muscle contractions in any muscle of the body chronic neck and back pain jaw tension Nerve problems Neuralgia Neuritis Neuropathy burning pain muscle

weakness numbness paralysis pins and needles seizures and convulsions tingling twitching vertigo confusion Obstetrical and gynecological problems PMS dysmenorrhea female infertility premature contractions preeclampsia and eclampsia cerebral palsy sudden infant death syndrome male infertility Osteoporosis Parkinson s disease Raynaud s syndrome Sports injuries Sports recovery Tongue biting Tooth decay <http://drcarolyndean.com> While there are a number of excellent magnesium supplements on the market oral supplementation is not always effective due to our body inefficiency in absorbing it through the digestive tract One of the reasons is that our intestinal tract gets covered by mucus as we grow older or for other reasons This means that we need to find other ways to bring sufficient magnesium to the body on a regular basis There is a fast way of doing it through intravenous injections but it is not an option for most people since it needs a professional to do it However there is another quick and simple method to supplement this very important mineral This method involves applying magnesium salts through the skin The reason it is a hugely effective method is that our skin has the ability to absorb so ions of magnesium penetrate through the skin into the bloodstream and get delivered to the cells needing it This course gives a very detailed explanation of various aspects of magnesium its role in health symptoms and consequences of magnesium deficiency for health and ways to supplement it through the skin The course is for therapists and members of the public However if you want to learn it in more detail or for professional use with an option to get certified you will need to do the online course You will be able to find information on how to enrol at the end of the book Alternatively feel free to contact me for more details or if you have any questions at <https://purenaturecures.com> get in touch

Curing America's Ill-Health by Reversing Our Widespread Magnesium Deficiency Kindig,2012-02 **Magnesium at Home** Galina St

George,2021-04-23 First of all I would like to say that this book is NOT meant to be an exhaustive study of magnesium There are other excellent books on the subject that achieve this goal by Dr Carolyn Dean Dr Mark Sircus Dr Mildred Seelig as well as some of the websites mentioned here such as mgwater.com My goal was to sum up the benefits uses and applications of magnesium salts and supplements I also wanted to show how magnesium salts could be used to help with the 25 most common health conditions Think of it as a practical guide to help you learn more about magnesium and how you can benefit from using it to help yourself family and friends I have been researching the benefits of using minerals for health for over a decade My focus has been on learning how magnesium chloride Epsom Himalayan salts as well as clays mud zeolite and diatomaceous earth can help humans and animals deal with common health problems and maintain health youth and vitality I have also been using the wonderful nature s gifts extensively for myself and my clients Magnesium has always been my favourite mineral One reason for it is its versatility because it can help us with so many problems It has certainly helped me my family friends and clients in many ways Joint pain loss of energy frequent infections high blood sugar level high blood pressure insomnia stressed mind leg cramps tired aching feet stomach cramps constipation wrinkles chest pain skin outbreaks and many other problems have been helped by using magnesium I have had people writing to me to say how their

lives have changed as a result of using magnesium salts The goal of this book is to show why I am so passionate about magnesium and why it takes a special place among all the other minerals what happens when we are deficient in it and how to correct the deficiency in a home environment As I am writing this I have a bottle of magnesium oil on a bookshelf it is always with me In this book I have listed 25 common problems which will benefit from magnesium supplementation I have limited myself to this number simply because if I listed all of the conditions which require magnesium for healing I would have to write a thick volume While the list here is non exhaustive it covers the issues which have touched me or people I know at least once in a lifetime This is the reason for the selection While do I cover the subject of oral and intravenous supplementation methods in this book my focus is on how to supplement magnesium transdermally i e through the skin I have been developing treatments and writing courses on the subject of transdermal magnesium supplementation for some time since I believe that it is the safest and fastest method to top our bodies with this vital mineral If you want to learn more about the procedures and courses visit <https://purenaturecures.com> To read more about magnesium visit my blog <https://magnesiumoil.org.uk>
