Treasures Of The Earth Need Greed And A Sustainable Future:

Treasures of the Earth Saleem H. Ali, 2009-01-01 Would the world be a better place if human societies were somehow able to curb their desires for material goods Saleem Ali's pioneering book links human wants and needs by providing a natural history of consumption and materialism with scientific detail and humanistic nuance It argues that simply disavowing consumption of materials is not likely to help in planning for a resource scarce future given global inequality development imperatives and our goals for a democratic global society Rather than suppress the creativity and desire to discover that is often embedded in the exploration and production of material goods which he calls the treasure impulse Ali proposes a new environmental paradigm one that accepts our need to consume treasure for cultural and developmental reasons but warns of our concomitant need to conserve In evaluating the impact of treasure consumption on resource rich countries he argues that there is a way to consume responsibly and alleviate global poverty

Geoscience for the Public Good and Global Development Gregory R. Wessel, Jeffrey K. Greenberg, 2016-05-18 Offers overview of applications of geosciences to sustainable development and geophilanthropic efforts worldwide and offers advice to guide creation of development projects Primacy of geologic input to all development activities is highlighted along with problems that are encountered and environmental issues that must be addressed

Mining and Sustainable Development Sumit. K. Lodhia, 2018-01-12 Mining is a transformative activity which has numerous economic social and environmental impacts These impacts can be both positive and adverse enhancing as well as disrupting economies ecosystems and communities The extractive industries have been criticised heavily for their adverse impacts and involvement in significant social and environmental scandals More recently these industries have sought to respond to negative perceptions and have embraced the core principles of sustainability This sector could be regarded as a leader in sustainability initiatives evident from the various developments and frameworks in mining and sustainability that have emerged over time This book reviews current topical issues in mining and sustainable development It addresses the changing role of minerals in society the social acceptance of mining due diligence in the mining industry critical and contemporary debates such as mining and indigenous peoples and transit worker accommodation corporate sustainability matters such as sustainability reporting and taxation and sustainability solutions through an emphasis on renewable energy and shared used infrastructure Written by experts from Australia Europe and North America but including examples from both developed and developing countries the chapters provide a contemporary understanding of sustainability opportunities and challenges in the mining industry The book will be of interest to practitioners government and civil society as well as scholars and students with interests in mining and sustainable development

Mining, Materials, and the Sustainable Development Goals (SDGs) Cristian Parra, Brandon Lewis, Saleem H. Ali, 2020-10-13 Mining Materials and the Sustainable Development Goals SDGs 2030 and Beyond provides a systematic assessment of how the mining and materials sector contributes to the 17 sustainable development goals SDGs set

forth by the United Nations in 2015 While the target date of 2030 is considered a benchmark for reaching these goals the book looks beyond this date and considers a longer term vision FEATURES Written by a consortium of authors from developing and developed countries Offers coverage of environmental economic and social dimensions of the SDGs Follows the 17 SDGs and includes a short chapter on each followed by a case example Includes longer conceptual chapters that consider cross cutting issues as well Aimed at those working in minerals mining and materials this work offers readers a practical vision of how these sectors can have a positive impact on meeting these vital global targets *Green Planet Blues* Ken Conca, Geoffrey D. Dabelko, 2018-10-08 This book discusses the dominant paradigms and controversies that shaped debate at the time of the Stockholm conference and in the twenty years between Stockholm and the 1992 Rio Earth Summit It examines the challenges of international cooperation and institutional reform **Green Planet Blues** Geoffrey D. Dabelko, Ken Conca, 2019-09-06 Revised and updated throughout this unique anthology examines global environmental politics from a range of perspectives and captures the voices of both the powerless and the powerful Paradigms of sustainability environmental security and ecological justice illustrate the many ways environmental challenges and their solutions are framed in contemporary international debates about climate water forests toxics energy food and biodiversity Organized thematically the selections offer a truly global scope Seventeen new readings explore climate justice globalization land and water grabs climate change and conflict China's international environmental relations and the future of climate politics in the wake of the Paris Agreement This book stresses the underlying questions of power interests authority and legitimacy that shape environmental debates and it provides readers with a global range of perspectives on the critical challenges facing the planet and its people This new edition of *Green Planet Blues* connects directly with a wide range of upper level undergraduate and graduate level courses **Between the Plough and the Pick** Kuntala Lahiri-Dutt, 2018-03-01 y global social agrarian and political changes whilst underlining the roles that local social political historical contexts play in shaping mineral extractive processes and practices It shows that the people who are engaged in these mining practices are often the poorest and most exploited labourers erstwhile peasants caught in the vortex of global change who perform the most insecure and dangerous tasks Although these people are located at the margins of mainstream economic life they collectively produce enormous amounts of diverse material commodities and find a livelihood and often a pathway out of oppressive poverty The contributions to this book bring these people to the forefront of debates on resource politics The contributors are international scholars and practitioners who explore the complexities in the histories in labour and production practices the forces driving such mining the creative agency and capacities of these miners as well as the human and environmental costs of ASM They show how these informal artisanal and small scale miners are inextricably engaged with or bound to global commodity values are intimately involved in the production of new extractive territories and rural economies and how their labour reshapes agrarian communities and landscapes of resource access and control This

book drives home the understanding that collectively this social and economic milieu redefines our conceptualisation of resource politics mineral dependent livelihoods extractive geographies of resources and commodities and their multiple meanings

Extracting Innovations Martin J. Clifford, Robert K. Perrons, Saleem H. Ali, Tim A. Grice, 2018-06-13 This book considers the most contemporary innovations propelling the extractive industries forward while also creating new environmental and social challenges The socio ecological fabric of innovation in the extractive industries is considered through an integrative approach that brings together engineers natural scientists and social scientists academics and practitioners giving an empirically grounded and realistic evaluation of the innovations in this sector It synthesizes a series of questions including

Deeper City Joe Ravetz, 2020-05-19 Deeper City is the first major application of new thinking on deeper complexity applied to grand challenges such as runaway urbanization climate change and rising inequality The author provides a new framework for the collective intelligence the capacity for learning and synergy in many layered cities technologies economies ecologies and political systems The key is in synergistic mapping and design which can move beyond smart winner takes all competition towards wiser human systems of cooperation where winners are all Forty distinct pathways from smart to wise are mapped in Deeper City and presented for strategic action ranging from local neighbourhoods to global finance As an atlas of the future and resource library of pathway mappings this book expands on the author's previous work City Region 2020 From a decade of development and testing Deeper City combines visual thinking with a narrative style and practical guidance This book will be indispensable for those seeking a sustainable future students politicians planners systems designers activists engineers and researchers A new postscript looks at how these methods can work with respect to the 2020 pandemic and asks How can we turn crisis towards transformation

Africa's Mineral Fortune Saleem H. Ali, Kathryn Sturman, Nina Collins, 2018-08-20 For too long Africa's mineral fortune has been lamented as a resource curse that has led to conflict rather than development for much of the continent Yet times are changing and the opportunities to bring technical expertise on modern mining alongside appropriate governance mechanisms for social development are becoming more accessible in Africa This book synthesizes perspectives from multiple disciplines to address Africa's development goals in relation to its mineral resources The authors cover ways of addressing a range of policy challenges environmental concerns and public health impacts and also consider the role of globalization within the extractive industries Academic research is coupled with key field vignettes from practitioners exemplifying case studies throughout The book summarizes the challenges of natural resource governance suggesting ways in which mining can be more effectively managed in Africa By providing an analytical framework it highlights the essential intersection between natural and social sciences central to efficient and effective harnessing of the potential for minerals and mining to be a contributor to positive development in Africa It will be of interest to policy makers industry professionals and researchers in the extractive industries as well as to the broader development community
