Visceral Cosmopolitanism Mica Nava,2007-09-01 Cultural theorist Mica Nava makes an original and significant contribution to the study of cosmopolitanism by exploring everyday English urban cosmopolitanism and foregrounding the gendered imaginative and empathetic aspects of positive engagement with cultural and racial difference By looking at a wide range of texts events and biographical narratives she traces cosmopolitanism from its marginal status at the beginning of the twentieth century to its relative normalisation today Case studies include the promotion of cosmopolitanism by Selfridges before the first world war relationships between white English women and other men Jews and black GIs during the 1930s and 1940s literary cinematic and social science representations of migrants in postcolonial Britain and Diana and Dodi s interracial romance in the 1990s In the final chapter the author draws on her own complex family history to illustrate the contemporary cosmopolitan London experience Scholars have tended to ignore the oppositional cultures of antiracism and social inclusivity This groundbreaking study redresses this imbalance and offers a sophisticated account of the uneven history of vernacular cosmopolitanism

Cosmopolitanism and Culture Nikos Papastergiadis, 2013-05-09 Today more than at any other point in history we are aware of the cultural impact of global processes This has created new possibilities for the development of a cosmopolitan culture but at the same time it has created new risks and anxieties linked to immigration and the accommodation of strangers This book examines how the images of the terrorist and the refugee by being dispersed across almost all aspects of social life have resulted in the production of ambient fears and it explores the role of artists in reclaiming the conditions of hospitality Since 9 11 contemporary artists have confronted the issues of globalization by creating situations in which strangers can enter into dialogue with each other collaborating with diverse networks to form new platforms for global knowledge Such knowledge does not depend upon the old model of establishing a supposedly objective and therefore universal framework but on the capacity to recognize and mutually negotiate situated differences From artworks that incorporate new media techniques to collective activism Papastergiadis claims that there is a new cosmopolitan imaginary that challenges the conventional divide between art and politics Through the analysis of artistic practices across the globe this book extends the debates on culture and cosmopolitanism from the ethics of living with strangers to the aesthetics of imagining alternative visions of the world Timely and wide ranging this book will be essential reading for students and scholars in sociology and cultural studies and will be of interest to anyone concerned with the changing forms of art and culture in our contemporary global age
