

Hello World

On the left you will see a Solution Explorer pane, containing all the relevant files and settings for your project.

Go to Project – Add New Item

This will bring up the following dialogue window:

Visual Studio will default to creating C++ files. While the vast majority of the code you write in this module will compile in C++, for the time being name the file main.c (rather than main.cpp).

Change the Name: text field to main.c
Click Add

This will create a new source file for your project called main.c

Paste the following code into the file:

```
#include <stdio.h>
#include <stdlib.h>

int main(int argc, char *argv[])
{
    printf("\nHello World \n\n");
    system("PAUSE");
    return 0;
}
```
