Feel Happy and Stress-Free Valerie Dickinson, 2015-09-13 Experiencing some stress on a regular basis is normal and can even be helpful Also known as the fight or flight response stress can help us steer clear of danger But too much stress can lead to health problems and can negatively impact other areas of your life

- 1 Identify the things which elevate your stress levels and learn how to tackle those things which you have control over

Combining this awareness with a healthy lifestyle that affords you opportunities to relax and have fun is the best way to live a life that is not overburdened with stress Colour Therapy is a complementary therapy for which there is evidence dating back thousands of years to the ancient cultures of Egypt China and India Colour is simply light of varying wavelengths thus each colour has its own particular wavelength and energy Colour Therapy Has Many Uses The energy relating to each of the seven spectrum colours of red orange yellow green blue indigo and violet resonates with the energy of each of the seven main chakras energy centres of the body If you can imagine the

chakras as a set of cogs wheels they are rather like the workings of a clock or an engine each cog wheel needs to move smoothly for the clock engine to work properly

Color Therapy Annie Simpson,2015-06-03 Colors affect moods and emotions Color therapy uses this sensitivity to color to identify and correct any imbalances in the body's internal energy patterns that might lead to emotional or physical ill health Therapists believe that each organ and body system has its own characteristic vibrational energy and disorders can be healed by applying color of the corresponding vibrational energy either to the whole body or to the organ concerned For example the red spectrum affects our physical energies It is stimulating and warming Blues are cooling and cleansing affecting our spiritual energies The yellow shades serve to bridge them affecting our mental energies The three colors together provide opportunities for healing our body mind and spirit We recommend that you start your relaxation with the color therapy by using this Color Therapy coloring book You may also want to read light therapy that covers in depth the white light therapy

Reduce Stress, Increase Happiness Jenna Grace,2015-09-13 Once you have begun to monitor and pay attention to your stress levels you need to try to identify specific stress triggers Stress can come from many places What triggers your stress Your job Your relationships Your finances Your children Pinpointing where your stress is coming from is the first step toward dealing with it Chromotherapy coloring books is just one of ways to reduce stress Colour is absorbed by the eyes skin skull our magnetic energy field or aura and the energy of colour affects us on all levels that is to say physical spiritual and emotional Every cell in the body needs light energy thus colour energy has widespread effects on the whole body There are many different ways of giving colour including Solarized Water Light boxes lamps with colour filters colour silks and hands on healing using colour Colour therapy can be shown to help on a physical level which is perhaps easier to quantify however there are deeper issues around the colours on the psychological and spiritual levels Our wellbeing is not of course purely a physical issue Fortunately many more practitioners both orthodox and complementary are now treating patients in an holistic manner That is to say we are body mind and spirit and none of these areas function entirely alone each has an effect upon the other This is why Colour Therapy can be so helpful since colour addresses all levels of our being
