this view in this new study author Gus Bagakis demonstrates that class is a tool that explains how the capitalist system works and why the class struggle is invisible Capitalism was and is a developing system in which the working class is turned into a commodity selling its labor power to the capitalist class that owns the factories businesses and corporations While capitalism claims to promote efficiency wealth and freedom it is also a system where the rich are getting richer the earth and climate are being destroyed and the poor get more and more desperate with each passing day All of this is happening because we live in a system that stunts personality and corrupts human relations by pitting people against one another for economic gain Through class analysis Bagakis explains that we must take off the filters that we've been indoctrinated with so that we can see how personal social and international problems develop Primary among these false filters is the idea that we are all middle class and so there are no class conflicts in our society Seeing through the System seeks to help students workers social activists and those interested in understanding the reasons behind many of the problems in the world today You can come to understand how our society was put together how it works and how it can be transformed
