Anthropologies of Unemployment Jong Bum Kwon, Carrie M. Lane, 2016-09-09 Anthropologies of Unemployment offers accessible theoretically innovative and ethnographically rich examinations of unemployment in rural and urban regions across North and South America Europe Africa and Asia The diversity of case studies demonstrates that unemployment is a pressing global phenomenon that sheds light on the uneven consequences of free market ideologies and policies Economic social and cultural marginalization is common in the lives of the unemployed but their experience and interpretation are shaped by local and national cultural particularities In exploring those differences the contributors to this volume employ recent theoretical innovations and engage with some of the more salient topics in contemporary anthropology such as globalization migration youth cultures bureaucracy class gender and race Taken together the chapters reveal that there is something new about unemployment today It is not a temporary occurrence but a chronic condition In adjusting to persistent longstanding unemployment people and groups create new understandings of unemployment as well as of work and employment they improvise new forms of sociality morality and personhood Ethnographic studies such as those found in Anthropologies of Unemployment are crucial if we are to understand the broader forms meanings and significance of pervasive economic insecurity and discover the emergence of new social and cultural possibilities

Transnational Sport in the American West, Bernardo Ramirez Rios, 2019-06-03 Transnational Sport in the American West is the story of how a sport can cross physical and cultural borders Catholic missionaries first brought the sport of basketball to southern Mexico in the early twentieth century but over time the sport has grown into a cultural tradition in states like Oaxaca Wa hak a The ball bounced across the Mexico U S border into Los Angeles CA during the 1970s and pick up games in the park eventually became organized tournaments In 1977 an annual tournament called the Benito Ju rez Cup was established in Guelatao Oaxaca to celebrate the culture of basketball in the region and to honor former president of Mexico Benito Ju rez Now generations of youth from the U S travel to Oaxaca to play in the tournament Follow the story of three youth who describe their culture and the significance the sport of basketball has played in their life They have different experiences based on age gender skill and birthplace but they all have one thing in common Basketball is a part of them and although the sport can be

played many different ways this is their game *Singing for the Dead* Paja Faudree, 2013-05-29 Singing for the Dead chronicles how indigenous people from Oaxaca Mexico's poorest state have reversed decades of cultural and linguistic erosion by reviving and reinventing ethnic traditions particularly by speaking and singing the local indigenous language

Ecologics Cymene Howe, 2019-05-17 Cymene Howe traces the complex relationships between humans nonhuman beings and objects and geophysical forces that shaped the Mare a Renovables project in Oaxaca Mexico which had it been completed would have been Latin America's largest wind power installation *Revealing Rebellion in Abiyala* Hannah Burdette, 2019-04-09 From the rise of the Pan Maya Movement in Guatemala and the Zapatista uprising in Mexico to the Water and Gas Wars in Bolivia and the Idle No More movement in Canada the turn of the twenty first century has witnessed a notable surge in Indigenous political action as well as an outpouring of texts produced by Native authors and poets Throughout the Americas Abiyala or the Land of Plenitude and Maturity in the Guna language of Panama Indigenous people are raising their voices and reclaiming the right to represent themselves in politics as well as in creative writing *Revealing Rebellion in Abiyala* explores the intersections between Indigenous literature and social movements over the past thirty years through the lens of insurgent poetics Author Hannah Burdette is interested in how Indigenous literature and social movements are intertwined and why these phenomena arise almost simultaneously in disparate contexts across the Americas Literature constitutes a key weapon in political struggles as it provides a means to render subjugated knowledge visible and to envision alternatives to modernity and coloniality The surge in Indigenous literature and social movements is arguably one of the most significant occurrences of the twenty first century and yet it remains understudied *Revealing Rebellion in Abiyala* bridges that gap by using the concept of Abiyala as a powerful starting point for rethinking inter American studies through the lens of Indigenous sovereignty **Transborder Lives** Lynn Stephen, 2007-06-13 Lynn Stephen's innovative ethnography follows indigenous Mexicans from two towns in the state of Oaxaca the Mixtec community of San Agustín Atenango and the Zapotec community of Teotitlán del Valle who periodically leave their homes in Mexico for extended periods of work in California and Oregon Demonstrating that the line separating Mexico and the United States is only one among the many borders that these migrants repeatedly cross including national regional cultural ethnic and class borders and divisions Stephen advocates an ethnographic framework focused on transborder rather than transnational lives Yet she does not disregard the state She assesses the impact migration has had on local systems of government in both Mexico and the United States as well as the abilities of states to police and affect transborder communities Stephen weaves the personal histories and narratives of indigenous transborder migrants together with explorations of the larger structures that affect their lives Taking into account U S immigration policies and the demands of both commercial agriculture and the service sectors she chronicles how migrants experience and remember low wage work in agriculture landscaping and childcare and how gender relations in Oaxaca and the United States are reconfigured by migration She looks at the ways that racial and ethnic

hierarchies inherited from the colonial era hierarchies that debase Mexico's indigenous groups are reproduced within heterogeneous Mexican populations in the United States Stephen provides case studies of four grass roots organizations in which Mixtec migrants are involved and she considers specific uses of digital technology by transborder communities Ultimately Stephen demonstrates that transborder migrants are reshaping notions of territory and politics by developing creative models of governance education and economic development as well as ways of maintaining their cultures and languages across geographic distances

Performing Indigeneity Laura R. Graham, H. Glenn Penny, 2014-12-01 This engaging collection of essays discusses the complexities of being indigenous in public spaces Laura R Graham and H Glenn Penny bring together a set of highly recognized junior and senior scholars including indigenous scholars from a variety of fields to provoke critical thinking about the many ways in which individuals and social groups construct and display unique identities around the world The case studies in *Performing Indigeneity* underscore the social historical and immediate contextual factors at play when indigenous people make decisions about when how why and who can be indigenous in public spaces *Performing Indigeneity* invites readers to consider how groups and individuals think about performance and display and focuses attention on the ways that public spheres both indigenous and nonindigenous ones have received these performances The essays demonstrate that performance and display are essential to the creation and persistence of indigeneity while also presenting the conundrum that in many cases indigeneity excludes some of the voices or identities that the category purports to represent
