Zen And The Art Of Anything:

Zen and the Art of Anything Hal W. French, 2007-12-30 A guidebook to recognizing and incorporating Zen thinking in everyday life It encourages opportunities for mindfulness in commonplace human actions like breathing speaking waking sleeping moving staying eating drinking working playing caring loving thriving and surviving *The History of Cotton*, 2005 Focuses on the role of cotton in the American South looking specifically at the cotton industry methods for growing harvesting and ginning cotton cotton classification uses of cottonseed and the infestation of the boll weevil Rite out of Place Ronald L. Grimes, 2006-08-10 Much ritual studies scholarship still focuses on central religious rites For this reason Grimes argues dominant theories like the data they consider remain stubbornly conservative This book issues a challenge to these theories and to popular conceptions of ritual Rite Out of Place collects 10 revised essays originally published in widely varied sources across the past five years Grimes has selected for inclusion those essays that track ritual as it haunts the edges of cultural boundaries ritual converging with theater ritual on television ritual at the edge of natural environments and so on The writing is non technical and the implied audience is sufficiently broad than any educated person interested in religion and public life should find it intelligible and engaging Teaching Ritual Catherine Bell, 2007-05-11 Many teachers share an interest in bringing a better appreciation of ritual into their religious studies classes but are uncertain how to do it Religious studies faculty know how to teach texts but they often have difficulty teaching something for which the meaning lies in the doing How do you teach such doing How much need be done How does the teacher talk about the religiosity that exists in personalized relationships not textual descriptions or prescriptions These practical issues also give rise to theoretical questions Giving more attention to ritual effectively suggests a reinterpretation of religion itself an understanding less focused on what people have thought and written and more focused on how they engage their universe Many useful analyses of ritual derive from anthropological and sociological premises which may be foreign to religious studies faculty and even seen by some as theologically problematic This is the first resource to address the issues specific to teaching this subject A stellar cast of contributors all scholars of ritual and teachers experienced in using ritual in a wide variety of courses and settings explain what has worked for them in the classroom what has not and what they have learned from the experience of being more real about religion Their voices range from personal to formal their topics from ways to use field trips to the role of architecture The result is a rich guide for teachers who are new to the subject as well as the experienced willing to think about new angles and fresh approaches Teaching Buddhism in the West Victor Sōgen Hori, Richard P.
