Shapiro, Jr.,2008-06-01 Despite the increase in meditation studies the quality remains variable many of them are trivial and most remain unreplicated Research on meditation has been plagued by insubstantial theorizing global claims and the substitution of belief systems for grounded hypotheses *Meditation* punctures some of the myths about meditation while retaining a place of value for mediation as a normal human function In each chapter includes discussion of the major questions addressed followed by a detailed critique of important theoretical clinical and research issues In several instances the reader may find that questions seem to beget questions research bearing upon certain issues may be contradictory or not yet of sufficient thoroughness In these cases the author suggests the specific future research necessary to resolve the questions posed so that claims about meditation are justified and which are not The profession of psychology itself is and has been in a polarized debate between the practitioners and the experimentalists The latter accuse the former of being soft non empirical non scientific while practitioners accuse the experimentalists of conducting research which is essentially irrelevant to human concerns This approach provides a bridge between research and clinical practice *Meditation* provides an encompassing survey of the topic nearly forty tables and figures sample questionnaires evaluations and programs and a detailed overview of a controversial field Shapiro separates self regulation with self delusion to outline questions and possible answers Deane H Shapiro Jr is professor emeritus of Psychiatry Human Behavior School of Medicine at the University of California Irvine He is internationally recognized as one of the world s foremost authorities on the clinical therapeutic and medical health care applications of meditation and his research and writing on meditation and self control have been requested by universities and medical schools throughout the world *Finding a Job Worth Having, 4th Edition* Vicki Lind, MS,Cynthia Dettman, JD, MSW,2012-06-29 This expanded handbook will help people find a meaningful career direction in Portland s bustling job
