Hemp Bound Doug Fine, 2014-03-12 Doug has created a blueprint for the America of the future Willie Nelson The stat sheet on hemp sounds almost too good to be true its fibers are among the planet s strongest its seed oil the most nutritious and its potential as an energy source vast and untapped Its one downside For nearly a century it s been illegal to grow industrial cannabis in the United States even though Betsy Ross wove the nation s first flag out of hemp fabric Thomas Jefferson composed the Declaration of Independence on it and colonists could pay their taxes with it But as the prohibition on hemp s psychoactive cousin winds down one of humanity s longest utilized plants is about to be reincorporated into the American economy Get ready for the newest billion dollar industry In *Hemp Bound* Dispatches from the Front Lines of the Next Agricultural Revolution bestselling author Doug Fine embarks on a humorous yet rigorous journey to meet the men and women who are testing researching and pioneering hemp s applications for the twenty first century From Denver where Fine hitches a ride in a hemp powered limo to Asheville North Carolina where carbon negative hempcrete insulated

houses are sparking a mini housing boom to Manitoba where he raps his knuckles on the hood of a hemp tractor and finally to the fields of east Colorado where practical farmers are looking toward hemp to restore their agricultural economy Fine learns how eminently possible it is for this misunderstood plant to help us end dependence on fossil fuels heal farm soils damaged after a century of growing monocultures and bring even more taxable revenue into the economy than its smokable relative Fine's journey will not only leave you wondering why we ever stopped cultivating this miracle crop it will fire you up to sow a field of it for yourself for the nation's economy and for the planet Drugs and Thugs Russell Crandall,2020-10-27

Boyd,Connie Carter,2014-01-01 Since the late 1990s marijuana grow operations have been identified by media and others as a new and dangerous criminal activity of epidemic proportions With Killer Weed Susan C Boyd and Connie Carter use their analysis of fifteen years of newspaper coverage to show how consensus about the dangerous people and practices associated with marijuana cultivation was created and disseminated by numerous spokespeople including police RCMP and the media in Canada The authors focus on the context of media reports in Canada to show how claims about marijuana cultivation have intensified the perception that this activity

poses significant dangers to public safety and thus is an appropriate target for Canada's war on drugs Boyd and Carter carefully show how the media draw on the same spokespeople to tell the same story again and again and how a limited number of messages has led to an expanding anti drug campaign that uses not only police but BC Hydro and local municipalities to crack down on drug production Going beyond the newspapers Killer Weed examines how legal political and civil initiatives that have emerged from the media narrative have troubling consequences for a shrinking Canadian civil society
