Top Knife Art And Craft In Trauma Surgery:

TOP KNIFE: The Art & Craft of Trauma Surgery Asher Hirshberg,,Kenneth L Mattox,2004-10-01 This book will help you take a badly wounded patient to the operating room organize yourself and your team do battle with some vicious injuries and come out with the best possible result It is a practical guide to operative trauma surgery for residents and registrars for general surgeons with an interest in trauma and for isolated surgeons operating on wounded patients in military rural or humanitarian settings A surgical atlas may show you what to do with your hands but not how to think plan and improvise Here you will find practical advice on how to use your head as well as your hands when operating on a massively bleeding trauma patient The first part of this book presents some general principles of trauma surgery The second part is about trauma surgery as a contact sport Here we show you how to deal with specific injuries to the abdomen chest neck and peripheral vessels The single most important lesson we hope you will derive from this book is to always keep it simple because in trauma surgery the simple stuff works

Surgical Technique of the Abdominal Organ Procurement

Andrzej Baranski,2009-03-01 The intention of this book is to promote a surgical technique of abdominal organ procurement in order to avoid organ damage and thus enhance the quality of retrieved organs Organ procurement from a brain death donor is an essential part of organ transplantation In donors where more than one organ is removed the surgical procedure is critically important and could be challenging both for the procurement and recipient surgeons Surgical injury or inadequate preservation of organs at this stage may cause irreversible organ damage or can lead to serious complications in the recipient Nowadays local or regional surgical teams whereby the transplant surgeon is not always one of the team members perform most multiorgan donor MOD procurement procedures To trust each other and to avoid surgical mistakes a quite training and standardization of the surgical techniques is required Teaching and training future procurement surgeons to adopt a standard operating procedure could be the right way to prevent technical mistakes and damage during abdominal multiorgan procurement I hope that in the near future every transplant surgeon involved in organ procurement will have to be certified The different national and international transplant organizations in Europe have been already started to establish the teaching programs which will lead to high expertise in the field of abdominal organ procurement
