Torture And Brutality In Medieval Literature:

Torture and Brutality in Medieval Literature Larissa Tracy, 2012 A new look at the way in which medieval European literature depicts torture and brutality An ugly subject but one that needs to be treated thoroughly and comprehensively with a discreet wit and no excessive relish These needs are richly satisfied in Larissa Tracy's bold and important book **DEREK PEARSALL** Professor Emeritus Harvard University Torture that most notorious aspect of medieval culture and society has evolved into a dominant mythology suggesting that the Middle Ages was a period during which sadistic torment was inflicted on citizens with impunity and without provocation popular museums displaying such gruesome implements as the rack the strappado the gridiron the wheel and the Iron Maiden can be found in many modern European cities These lurid images of medieval torture have re emerged within recent discussions on American foreign policy and the introduction of torture legislation as a weapon in the War on Terror and raised questions about its history and reality particularly given its proliferation in some literary genres and its relative absence in others This book challenges preconceived ideas about the prevalence of torture and judicial brutality in medieval society by arguing that their portrayal in literature is not mimetic Instead it argues that the depictions of torture and brutality represent satire critique and dissent they have didactic and political functions in opposing the status quo Torture and brutality are intertextual literary motifs that negotiate cultural anxieties of national identity by situating these practices outside their own boundaries in the realm of the barbarian Other medieval and early modern authors define themselves and their nations in opposition to them Works examined range from Chaucer to the Scandinavian sagas to Shakespeare enabling a true comparative approach to be taken Larissa Tracy is Associate Professor Longwood University

Torture and Brutality in Medieval Literature Larissa Tracy, 2015 A new look at the way in which medieval European literature depicts torture and brutality Castration and Culture in the Middle Ages Larissa Tracy, 2013 Essays exploring medieval castration as reflected in archaeology law historical record and literary motifs Castration and castrati have always been facets of western culture from myth and legend to law and theology from eunuchs guarding harems to the seventeenth and eighteenth century castrati singers Metaphoric castration pervades a number of medieval literary genres particularly the Old French fabliaux exchanges of power predicated upon the exchange or absence of sexual desire signified by genitalia but the plain literal act of castration and its implications are often overlooked This collection explores this often taboo subject and its implications for cultural mores and custom in Western Europe seeking to demystify and demythologize castration Its subjects include archaeological studies of eunuchs historical accounts of castration in trials of combat the mutilation of political rivals in medieval Wales Anglo Saxon and Frisian legal and literary examples of castration as punishment castration as comedy in the Old French fabliaux the prohibition against genital mutilation in hagiography and early modern anxieties about punitive castration enacted on the Elizabethan stage The introduction reflects on these topics in the context of arguably the most well known victim of castration in the middle ages

Involuntary Confessions of the Flesh in Early Modern France Nora Martin Peterson, 2016-09-14 Involuntary Confessions of the Flesh in Early Modern France was inspired by the observation that small slips of the flesh involuntary confessions of the flesh are omnipresent in early modern texts of many kinds These slips which bear similarities to what we would today call the Freudian slip disrupt and destabilize readings of body self and text three categories whose mutual boundaries this book seeks to soften but also in their very messiness participate in defining them Involuntary Confessions capitalizes on the uncertainty of such volatile moments arguing that it is instability itself that provides the tools to navigate and understand the complexity of the early modern world Rather than locate the body within any one discourse Foucauldian psychoanalytic this book argues that slips of the flesh create a liminal space not exactly outside of discourse but not necessarily subject to it either Involuntary confessions of the flesh reveal the perpetual and urgent challenge of early modern thinkers to textually confront and define the often tenuous relationship between the body and the self By eluding and frustrating attempts to contain it the early modern body reveals that truth is as much about surfaces as it is about interior depth and that the self is fruitfully perpetuated by the conflict that proceeds from seemingly irreconcilable narratives Interdisciplinary in its scope Involuntary Confessions of the Flesh in Early Modern France pairs major French literary works of the sixteenth and seventeenth centuries by Marguerite de Navarre Montaigne Madame de Lafayette with cultural documents confession manuals legal documents about the application of torture and courtly handbooks It is the first study of its kind to bring these discourses into thematic rather than linear or chronological dialog In so doing it emphasizes the shared struggle of many different early modern conversations to come to terms with the body's volatility Published by University of Delaware Press Distributed
