With Warm Air If you want to ventilate your room to warm it and open the bottom aperture you will succeed in both because
the fresh air will be the warmest and will not stop until it comes in contact with the ceiling where spreading out in a level
strata over the whole ceiling it will keep its relative position to the whole body until it reaches the bottom and passes out
through the aperture If we want to ventilate our room to cool it we must let the air out at or near the top About the Publisher
