Transnational Political Islam Religion Ideology And Power Critical Studies On Islam:

Transnational Political Islam Azza Karam, 2004 Political Islam to be distinguished from Islam as a culture or a religion and from Islamic Fundamentalism is an increasingly important feature of the western political scene The ideologies of Political Islam reflect the fact that some of their adherents live and work within a Western socio political context Although Political Islam has been widely written about in Muslim countries very little has been published the West and this book attempts to redress that imbalance With a range of outstanding contributors that includes academics and human rights advocates this book tackles the diversity of Islamist thinking and practice in various Western countries and explores their transnational connections in both East and West The book analyses developments in Islamist thinking and activities and their connections to the latest global political and economic trends and discusses future evolutions of the ideology and its manifestations

The Road to Al-Qaeda Montasser Al-Zayyat, 2004-01-20 Written by an Egyptian human rights lawyer it is the first English language account of the development of tensions between violent and non violent factions in radical Islamist movements from the perspective of an insider It is also a biography of one of the world s most wanted terrorists Egyptian born Dr Ayman al Zawahiri Widely recognized as the man who will take over the leadership of Al Qaeda after Osama bin Laden he is also the reputed architect of the Riyadh bombings in Saudi Arabia The original version of this book sold widely across the Arabic world Reproduced in translation here with an extensive introduction from distinguished scholar Ibrahim Abu Rabi it stands alone as an unrivalled account of the divisions within militant Islamist ideology The author provides insight into the internal politics of Islamic Jihad and the radicalisation of bin Laden s deputy he examines Zawahiri s opposition to efforts by other militant Islamists to call a ceasefire with the Egyptian authorities and he narrates the redirection of Zawahiri s activities towards the US and Israel As an insight into one of the key minds behind Al Qaeda this book makes unparalleled and disturbing reading It is an important document for anyone who seeks to understand how a minority extremist ideology came to have such an impact on world events

Routledge Handbook of Immigration and Refugee Studies Anna Triandafyllidou, 2015-10-05 The Routledge Handbook of Immigration and Refugee Studies offers a comprehensive and unique study of the multi disciplinary field of international migration and asylum studies Utilising contemporary information and analysis this innovative Handbook provides an in depth examination of legal migration management in the labour market and its affect upon families in relation to wider issues of migrant integration and citizenship With a comprehensive collection of essays written by leading contributors from a broad range of disciplines including sociology of migration human geography legal studies political sciences and economics the Handbook is a truly multi disciplinary book approaching the critical questions of Migration and the labour market Integration and citizenship Migration families and welfare Irregular migration smuggling and trafficking in human beings asylum and forced migration Organised into short thematic and geographical chapters the Routledge Handbook of Immigration and Refugee Studies

provides a concise overview on the different topics and world regions as well as useful guidance for both the starting and the more experienced reader The Handbook s expansive content and illustrative style will appeal to both students and professionals studying in the field of migration and international organisations

Hamas and Civil Society in Gaza Sara Roy, 2013-11-10 A revealing look at Islamic social institutions in Gaza and the West Bank Many in the United States and Israel believe that Hamas is nothing but a terrorist organization and that its social sector serves merely to recruit new supporters for its violent agenda Based on Sara Roy s extensive fieldwork in the Gaza Strip and West Bank during the critical period of the Oslo peace process Hamas and Civil Society in Gaza shows how the social service activities sponsored by the Islamist group emphasized not political violence but rather community development and civic restoration Roy demonstrates how Islamic social institutions in Gaza and the West Bank advocated a moderate approach to change that valued order and stability not disorder and instability were less dogmatically Islamic than is often assumed and served people who had a range of political outlooks and no history of acting collectively in support of radical Islam These institutions attempted to create civic communities not religious congregations They reflected a deep commitment to stimulate a social cultural and moral renewal of the Muslim community one couched not only or even primarily in religious terms Vividly illustrating Hamas s unrecognized potential for moderation accommodation and change Hamas and Civil Society in Gaza also traces critical developments in Hamas s social and political sectors through the Second Intifada to today and offers an assessment of the current more adverse situation in the occupied territories The Oslo period held great promise that has since been squandered This book argues for more enlightened policies by the United States and Israel ones that reflect Hamas s proven record of nonviolent community building

The Muslim Brotherhood and the West Martyn Frampton, 2018-02-19 Drawing on the Muslim Brotherhood s Arabic and English writings and on archival research in London and Washington Martyn Frampton provides the first comprehensive history of the charged relationship between the world s largest Islamist movement and the Western powers that have dominated the Middle East for a century Britain and the United States

Islam and Modernity Iftikhar H. Malik, 2004 Second volume of Deutscher prize winning trilogy on the future of IR tracing the defining characteristics of foreign encounters over time

Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur, 2004

Religion, Education and Governance in the Middle East Sai Felicia Krishna-Hensel, 2016-04-08 The Middle East is a key geopolitical strategic region in the international system but its distinctive cultural and political divisions present a mosaic of states that do not lend themselves to simplistic interpretations A thoughtful analysis of the Middle East requires an understanding of the synergism between tradition and modernity in the region as it adapts to a globalizing world Religious education and activism continue to remain a significant factor in the modernization process and the development of modern governance in the states of the Middle East This interdisciplinary book explores the historical and contemporary role of religious tradition and education on political elites and governing

agencies in several major states as well as generally in the region The relationship between democracy and authority is examined to provide a better understanding of the complexity underlying the emergence of new power configurations As the region continues to respond to the forces of change in the international system it remains an important and intriguing area for analysts

Islam and Statecraft Jon Hoffman, 2025-01-23 Instead of religion influencing political outcomes this analysis examines how politics influences religious outcomes Dominant analyses examining the utilization of religion as a tool of statecraft in the Middle East remain overwhelmingly fixated on how Islam influences the foreign policies of different state actors not how political considerations often influence the forms Islam assumes and how religion itself is often molded according to strategic considerations of political elites That Islam due to its unique or exceptional relationship with politics drives political outcomes at the international level in the Middle East is a myth this book shatters by demonstrating how the political considerations of ruling elites specifically the intersection of domestic and foreign threats influence and constrain the kinds of religious soft power strategies adopted by states in the region This book develops a comprehensive analytical framework for the notion of religious soft power capable of incorporating power based identity based and ideational variables to examine how states couple religion with their broader foreign policy conduct This framework is applied to the Middle East through the specific examination of three countries Saudi Arabia Qatar and the United Arab Emirates in the period following the Arab Uprisings to demonstrate how specific religious narratives identities histories and ideologies are constructed by political elites in the Middle East for the advancement of what are inherently political objectives namely the imperatives of regime preservation and power projection

Islam in the Digital Age Gary R. Bunt, 2003-07-20 The book explores what characterises a good life a TM and how this idea has been affected by globalisation and neoliberalism
