Violence In Medieval Europe The Medieval World:

Violence in Medieval Europe Warren C. Brown, 2014-06-11 The European Middle Ages have long attracted popular interest as an era characterised by violence whether a reflection of societal brutality and lawlessness or part of a romantic vision of chivalry Violence in Medieval Europe engages with current scholarly debate about the degree to which medieval European society was in fact shaped by such forces Drawing on a wide variety of primary sources Warren Brown examines the norms governing violence within medieval societies from the sixth to the fourteenth century over an area covering the Romance and the Germanic speaking regions of the continent as well as England Scholars have often told the story of violence and power in the Middle Ages as one in which private violence threatened and sometimes destroyed public order Yet academics are now asking to what degree violence that we might call private in contrast to the violence wielded by a central authority might have been an effective social tool Here Brown looks at how private individuals exercised violence in defence of their rights or in vengeance for wrongs within a set of clearly understood social rules and how over the course of this period kings began to claim the exclusive right to regulate the violence of their subjects as part of their duty to uphold God's order on earth Violence in Medieval Europe provides both an original take on the subject and an illuminating synthesis of recent and classic scholarship It will be invaluable to students and scholars of history medieval studies and related areas for the light it casts not just on violence but on the evolution of the medieval political order

Song of Aspremont Crowning of Louis Raoul de Cambrai The Quest of the Holy Grail The Death of King Arthur Robert the Devil Sir Gowther The Romance of the Wings The Book of the Order of Chivalry L Histoire de Guillaume le Marechal Livre de chevalerie Morte Darthur etc *Domestic Violence in Medieval Texts* Eve Salisbury, 2002 Challenges readers to acknowledge the extent to which violence figured in medieval texts and with this recognition to reconsider what the works teach us not only about the treatments and troping of victims in the medieval world but also how these patterns are a part of the social history of domestic violence *Law, Justice, and Society in the Medieval World* Esther Liberman Cuenca, M. Christina Bruno, Anthony Perron, 2025-05-06 This coursebook is the first full length study of cinematic legal medievalism or the modern interpretation of medieval law in film and popular culture For more than a century filmmakers have used the Middle Ages to produce popular entertainment and comment on contemporary issues Each of the twenty chapters in *Law Justice and Society in the Medieval World* represents an original contribution to our understanding of how medieval regulations laws and customs have been depicted in film It offers a window into the rules of medieval society through the lens of popular culture This book includes analyses of recent and older films avant garde as well as popular cinema Films discussed in this book include *Braveheart* 1995 *Kingdom of Heaven* 2005 *The Passion of Joan of Arc* 1928 *The Last Duel* 2021 *The Green Knight* 2021 *The Little Hours* 2017 and *The Adventures of Robin Hood* 1938 among others Each chapter explores the contemporary context of the film in question the medieval literary or historical milieu the film references and the lessons the film can teach us about the medieval world Attached to each chapter is an appendix of medieval documentary sources and reading questions to prompt critical reflection **Christianity and Violence in the Middle Ages and Early Modern Period** Fernanda Alfieri, Takashi Jinno, 2021-03-08 The volume explores the relationship between religion and violence in Europe from the Middle Ages to the Early modern period involving European and Japanese scholars It investigates the ideological foundations of the relationship between violence and religion and their development in a varied corpus of sources political and theological treatises correspondence of missionaries pamphlets and images **Women and Gender in Medieval Europe** Margaret Schaus, 2006 Publisher description *Crime and Punishment in the Middle Ages and Early Modern Age* Albrecht Classen, Connie Scarborough, 2012-10-30 All societies are constructed based on specific rules norms and laws Hence all ethics and morality are predicated on perceived right or wrong behavior and much of human culture proves to be the result of a larger discourse on vices and virtues transgression and ideals right and wrong The topics covered in this volume addressing fundamental concerns of the premodern world deal with allegedly criminal or simply wrong behavior which demanded punishment Sometimes this affected whole groups of people such as the innocently persecuted Jews sometimes individuals such as violent and evil princes The issue at stake here embraces all of society since it can only survive if a general framework is observed that is based in some way on justice and peace But literature and the visual arts provide many examples of open and public protests against wrongdoings ill conceived ideas and concepts and stark crimes

such as theft rape and murder In fact poetic statements or paintings could carry significant potentials against those who deliberately transgressed moral and ethical norms or who even targeted themselves

The Middle Ages Winston Black,2019-07-01 This book guides readers through 10 pervasive fictions about medieval history provides them with the sources and analytical tools to critique those fictions and identifies what really happened in the Middle Ages This book is the first to present fictions about the medieval world to serious students of history Instead of merely listing myths and stating they are wrong this volume promotes critical historical analysis of those myths and how they came to be Each of the ten chapters outlines a pervasive modern myth about medieval European history describing What People Think Happened and What Really Happened and illustrating both trends with primary source documents The book demonstrates that historical fictions also have a history and that while we need to replace those fictions with facts about the medieval past we can also benefit from understanding how a fiction about the Middle Ages developed and what that says about our modern perspectives on the past Through this innovative presentation readers are introduced to a wide range of sources from Roman imperial perspectives on the Fall of Rome to songs of chivalry and chronicles of the Crusades scientific treatises on the shape of the Earth and the creation of the universe and early modern stories and textbooks that developed or perpetuated historical myths

Conflict in Medieval Europe Warren C. Brown,Piotr Górecki,2017-05-15 Conflict is defined here broadly and inclusively as an element of social life and social relations Its study encompasses the law not just disputes concerning property but wider issues of criminality coercion and violence status sex sexuality and gender as well as the phases and manifestations of conflict and the behaviors brought to bear on it It engages too with the nature of the transformation spanning the Carolingian period and its implications for the meanings of power violence and peace Conflict in Medieval Europe represents the American school of the study of medieval conflict and social order Framed by two substantial historiographical and conceptual surveys of the field it brings together two generations of scholars the pioneers who continue to expand the research agenda and younger colleagues who represent the best emerging work on this subject The book

therefore both marks the trajectory of conflict studies in the United States and presents a set of original highly individual contributions across a shifting conceptual range indicative of a major transition in the field **Remaking the Middle Ages** Andrew B.R. Elliott,2014-01-10 Proposing a fresh theoretical approach to the study of cinematic portrayals of the Middle Ages this book uses both semiotics and historiography to demonstrate how contemporary filmmakers have attempted to recreate the past in a way that while largely imagined is also logical meaningful and as truthful as possible Carrying out this critical approach the author analyzes a wide range of films depicting the Middle Ages arguing that most of these films either reflect the past through a series of visual signs a concept he has called iconic recreation or by comparing the past to a modern equivalent called paradigmatic representation Medieval Europe: A Short History Judith M. Gender, Nation and Conquest in the Works of William of Malmesbury Kirsten A. Fenton, 2008 A fresh new approach to the works of William of Malmesbury looking in particular at his presentation of men and women William of Malmesbury is one of the most important English historians of the twelfth century not only a critical period in English history but also one that has been recognised as significant in terms of the writing of history and the construction of a national past This innovative study provides a gendered reading of Malmesbury s works with special reference to the themes of conquest and nation It considers Malmesbury s presentation of men and women both lay and religious through categories based on attributes such as sexual behaviour and violence rather than the more familiar professional or familial roles such as warrior and wife It is also concerned with language and how the topics of conquest and nation are discussed in gendered terms Importantly attention is paid to Malmesbury s own position as a post conquest chronicler writing at a time of church reform and to the impact the

changes had upon the construction of the stories he narrates KIRSTEN A FENTON holds a Leverhulme Early Career Fellowship at the University of Edinburgh
