Violence Aggression And Coercive Actions:

Violence, Aggression & Coercive Actions James T. Tedeschi, Richard B. Felson, 1994-01-01 In this book the authors describe a provocative theory that focuses on social conflicts and the concepts of power influence social identity and retributive justice They begin with a thorough examination and critique of the traditional theories of aggression including biological physiological and criminological perspectives They go on to synthesize key findings of these and other theoretical perspectives to support and define their own social interactionist theory of aggression that explores face to face confrontations and the intent of the aggressor's particular actions Violence Aggression and Coercive Actions offers a new interdisciplinary approach to the study of aggression that is rooted in social and psychological perspectives The authors present a strong theoretical foundation for practical analysis and intervention Particularly thought provoking are discussions surrounding pornography television and other media violence sexual coercion and parenting styles contrasting the use of abusive discipline with normal deterrents

Encyclopedia of Criminological Theory Francis T. Cullen, Pamela Wilcox, 2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Toccock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological Theory available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory

Action Theory Ladislav Valach, Richard A. Young, M. Judith Lynam, 2002-07-30 The authors describe a view that our short medium and long term behavior interactions and relationships whether planned or spontaneous purposeful or playful can be understood in terms of goal directed systems An understanding of action theory and research methods used in applied settings is provided It leads to the conclusion that individual processes are joint

processes and the joint construction of lives should be monitored to understand ongoing personal and social involvements. The unique contribution of this book lies in its bringing together and extending of basic features of the theory of goal directed action systems previously published in a range of scattered research and conceptual articles in the literature.
