Viva Las Vegas After Hours Architecture:

Viva Las Vegas Alan Hess, 1993-07 As eccentric and entertaining as its subject matter Viva Las Vegas examines the architectural and historical evolution of America's original strip city from its modest origins as a sleepy roadside stop to the neon splendor of its extravagant theme hotels Illustrated with fascinating contemporary and archival photographs this inviting informative volume offers an intriguing look into the kitsch and complexities of a unique and provocative City The Themed Space Scott A. Lukas, 2007-10-07 The Themed Space Locating Culture Nation and Self is the first edited collection focused on the significance of the theme space The first section of the text discusses the ways in which theming acts as a form of authenticity Included are articles on the theme park Dollywood the historic Coney Island the uses of theming in Flagstaff Arizona and the Las Vegas Strip Section two considers theming as a reflection of nation and its authors focus on Chinese theme parks and shopping malls the Lost City theme park in South Africa and the Ain Diab resort district in Casablanca The third section of the book illustrates how theming often targets the person whether famous or everyday The authors look at spaces ranging from the Liverpool John Lennon Airport love hotels in Japan and the Houston Texas theme park AstroWorld The final section emphasizes theming as a projection of the mind and psychology The authors focus on behind the scenes tourism at Universal Studios and the Ford Rouge Factory Tour the use of theming in unexpected spaces like Florida themed clinics theming in virtual reality spaces of video games and the social controversies related to theming in various parts of the world The book includes a comprehensive bibliography on theming and a list of key terms The Themed Space is of great interest to students of all levels and scholars of anthropology urban studies and sociology **Encyclopedia of Twentieth Century Architecture** R. Stephen Sennott, 2004 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Encyclopedia of 20th Century Architecture website Focusing on architecture from all regions of the world this three volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and building practices across traditional geographic and cultural boundaries

Devil's Bargains Hal Rothman, 1998 The West is popularly perceived as America's last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into America's land of opportunism From Sun Valley to Santa Fe towns throughout the West have been turned over to outsiders and not just to those who visit and move on but to those who stay and control Although tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil's bargain in the making Hal Rothman examines the effect of twentieth century tourism on the West and exposes that industry's darker side He tells how tourism evolved from

Grand Canyon rail trips to Sun Valley ski weekends and Disneyland vacations and how the post World War II boom in air travel and luxury hotels capitalized on a surge in discretionary income for many Americans combined with newfound leisure time From major destinations like Las Vegas to revitalized towns like Aspen and Moab Rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers And because tourism often results in a redistribution of wealth and power to outsiders observes Rothman it represents a new form of colonialism for the region By depicting the nature of tourism in the American West through true stories of places and individuals that have felt its grasp Rothman doesn't just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take Deftly balancing historical perspective with an eye for what's happening in the region right now his book sets new standards for the study of tourism and is one that no citizen of the West whose life is touched by that industry can afford to ignore

A Reader in Themed and Immersive Spaces Scott A. Lukas, 2016 Themed spaces have at their foundation an overarching narrative symbolic complex or story that drives the overall context of their spaces Theming in some very unique ways has expanded beyond previous stereotypes and oversimplifications of culture and place to now consider new and often controversial topics themes and storylines Publisher's website

Flickering Light Christoph Ribbat, 2013-07-15 Without neon Las Vegas might still be a sleepy desert town in Nevada and Times Square merely another busy intersection in New York City Transformed by the installation of these brightly colored signs these destinations are now world famous representing the vibrant heart of popular culture But for some neon lighting represents the worst of commercialism Energized by the conflicting love and hatred people have for neon Flickering Light explores its technological and intellectual history from the discovery of the noble gas in late nineteenth century London to its fading popularity today Christoph Ribbat follows writers artists and musicians from cultural critic Theodor Adorno British rock band the Verve and artist Tracey Emin to Vladimir Nabokov Langston Hughes and American country singers through the neon cities in Europe America and Asia demonstrating how they turned these blinking lights and letters into metaphors of the modern era He examines how gifted craftsmen carefully sculpted neon advertisements introducing elegance to modern metropolises during neon's heyday between the wars followed by its subsequent popularity in Las Vegas during the 1950s and 60s Ribbat ends with a melancholy discussion of neon's decline describing how these glowing signs and installations came to be seen as dated and characteristic of run down neighborhoods From elaborate neon lighting displays to neglected diner signs with unlit letters Flickering Light tells the engrossing story of how a glowing tube of gas took over the world and faded almost as quickly as it arrived
