An increased emphasis on an early start in group day care and educational settings for young children means that by the time children enter statutory education they may already have had several transitional experiences each will have an impact This book explores early transitions from a variety of international perspectives Each chapter is informed by rigorous research and makes recommendations on how education professionals can better understand and support transitions in the early years Contributors examine issues such as Parental involvement in the transition to school Children s voices on the

transition to primary school The construction of identity in the early years Readers will be able to draw support guidance and inspiration from the different writers to scaffold their own thinking and development in relation to children s transitions Ample opportunities are offered for readers to gain confidence and competence in dealing with the range of people involved in transitions and to the benefit of everyone not least the children whose transitions capital will grow Informing Transitions in the Early Years is essential reading for early years students practitioners policy makers and researchers

Early Childhood Pedagogies Jane Murray, 2018-12-07 Diverse international perspectives on the ways in which young children s learning and care may be supported converge in this book Traversing the field of early childhood education and care from its established philosophical underpinnings to 21st century research policies and practices the contributions to this volume draw together past and present discourses as a basis for shaping future trajectories In spite of a growing international consensus on the strong influence of early childhood experiences on lifetime outcomes the nineteen chapters reveal contemporary early childhood pedagogy as a collection of spaces characterised by plurality complexity and dissonance These characteristics signal the importance of recognising early childhood pedagogies multiple models of practice for the many diverse learning and care contexts that have the capacity to value young children as individuals and enable each to flourish now and throughout their lives Moreover such characteristics disrupt notions that a single optimal early childhood pedagogy is either possible or desirable
