The Graphic Lives of Fathers Mihaela Precup, 2020-02-21 This book explores the representation of fatherhood in contemporary North American autobiographical comics that depict paternal conduct from the post war period up to the present. It offers equal space to autobiographical comics penned by daughters who represent their fathers' complicated and often disappointing behavior and to works by male cartoonists who depict and usually celebrate their own experiences as fathers. This book asks questions about how the desire to forgive or be forgiven can compromise the author's ethics or dictate style, considers the ownership of life stories whose subjects cannot or do not agree to be represented, and investigates the pervasive and complicated effects of dominant masculinities. By close reading these cartoonists' complex strategies of self-representation, this volume also places photography and archival work alongside the problematic legacy of self-deprecation carried on from underground comics and shows how the vocabulary of graphic narration can work with other media and at the intersection of various genres and modes to produce a valuable scrutiny of contemporary norms of fatherhood. *Comics and Stuff* Henry Jenkins, 2020-04-14 Considers how comics display our everyday stuff: junk drawers, bookshelves, attics as a way into understanding how we represent ourselves now. For most of their history, comics were widely understood as disposable; you read them and discarded them, and the pulp paper they were printed on decomposed over time. Today, comic books have been rebranded as graphic novels, clothbound, high gloss volumes that can be purchased in bookstores, checked out of libraries, and displayed proudly on bookshelves. They are reviewed by serious critics and studied in university classrooms. A medium once considered trash has been transformed into a respectable, if not elite, genre. While the American comics of the past were about hyperbolic battles between good and evil, most of today's graphic novels focus on everyday personal experiences. Contemporary culture is awash with stuff. They give vivid expression to a culture preoccupied with the processes of circulation and appraisal, accumulation and possession. By design, comics encourage the reader to scan the landscape, to pay attention to the physical objects that fill our lives and constitute our familiar surroundings. Because comics take place in a completely fabricated world, everything is there intentionally. Comics are stuff; comics tell stories about stuff, and they display stuff. When we use the phrase "and stuff" in everyday speech, we often mean something vague, something like "etcetera." In this book, stuff refers not only to physical objects but also to the emotions, sentimental attachments, and nostalgic longings that we express or hold at bay through our relationships with stuff. In *Comics and Stuff*, his first solo authored book in over a decade, pioneering media scholar Henry Jenkins moves through anthropology, material culture, literary criticism, and art history to resituate comics in the cultural landscape. Through over one hundred full-color illustrations, using close readings of contemporary graphic novels, Jenkins explores how comics depict stuff and exposes the central role that stuff plays in how we curate our identities, sustain memory, and make meaning. *Comics and Stuff* presents an innovative new way of thinking about comics and graphic novels that will change how we think about our stuff and ourselves. **Female**

H. Earle, 2017-06-19 Conflict and trauma remain among the most prevalent themes in film and literature Comics has never avoided such narratives and comics artists are writing them in ways that are both different from and complementary to literature and film

In *Comics Trauma and the New Art of War* Harriet E H Earle brings together two distinct areas of research trauma studies and comics studies to provide a new interpretation of a long standing theme Focusing on representations of conflict in American comics after the Vietnam War Earle claims that the comics form is uniquely able to show traumatic experience by representing events as viscerally as possible Using texts from across the form and placing mainstream superhero comics alongside alternative and art comics Earle suggests that comics are the ideal artistic representation of trauma Because comics bridge the gap between the visual and the written they represent such complicated narratives as loss and trauma in unique ways particularly through the manipulation of time and experience Comics can fold time and confront traumatic events be they personal or shared through a myriad of both literary and visual devices As a result comics can represent trauma in ways that are unavailable to other narrative and artistic forms With themes such as dreams and mourning Earle concentrates on trauma in American comics after the Vietnam War Examples include Alissa Torres s *American Widow* Doug Murray s *The Nam* and Art Spiegelman s much lauded *Maus* These works pair with ideas from a wide range of thinkers including Sigmund Freud Mikhail Bakhtin and Fredric Jameson as well as contemporary trauma theory and clinical psychology Through these examples and others *Comics Trauma and the New Art of War* proves that comics open up new avenues to explore personal and public trauma in extraordinary necessary ways
